VOLUME 6
NUMBER 12
NOVEMBER 8, 1973

CONVOCATION

Convocation ceremonies will commence at 2:00 p.m. on Saturday, November 17th in the Agora. Approximately 245 graduates will receive degrees and diplomas during the ceremony: Faculty of Education - 17; University Schools - 35; Faculty of Science - 25, including 5 Honours graduates and 6 Masters of Science; Faculty of Arts - 168, including 19 Honours graduates and 8 Masters of Arts.

The Convocation Speaker will be Dr. Sam Smith, Professor and Dean of the Faculty of Arts at Simon Fraser University, British Columbia. Dr. Smith, who received his Doctorate from Penn State and an Honourary Degree from Nagoya Grakuin University (Hawaii), is a past president of the University of Lethbridge, Alberta.

The Chancellor's Reception for graduating students, parents, friends and faculty will take place in the Great Hall immediately following the Convocation ceremony.

CONVOCATION INSTRUCTIONS

Degree and Diploma Graduands

If you cannot attend the Graduation exercises, please notify the Office of the Secretary of the University immediately. The printed program and seating arrangements have to be made with full knowledge of those who will be present. Your co-operation is essential.

Gowns and Hoods

Gowns and Hoods may be picked up from room UC-2001 of the University on Saturday, November 17th, 1973, 10:00 a.m. to 1:00 p.m.

A. Diploma Graduands - Including Education

All Candidates - gowns only

NOTE: Education Diploma candidates who have completed a Lakehead University degree should request the appropriate hood.

B. Degree Graduands

All Candidates - gowns and hoods

Hood Border Colours are as follows:

B.A. and Hons. B.A. -one inch white border
M.A. -two inch white border

B.Sc. and Hons. B.Sc. -one inch gold border

M.Sc. -two inch gold border

B.Sc. Nursing -one inch red border

B. Commerce -one inch drab border

B. Education -one inch light blue border

B.Sc. Forestry -one inch forest green border

Hoods will be donned in the Assembling and Robing Area and will be worn throughout the ceremony.

Identification Cards

The graduand will also pick up a card which will have his full name and the number showing his position in the lineup, assuming that all of the graduands are present. The student on mounting the platform will present the card to the Dean, who will read the candidate's name to the audience.

Gowns and hoods may be returned to the Office of the Secretary in accordance with the following schedule:

Saturday, November 17 - immediately following the ceremony (to 5 p.m.)

Monday, November 19 - 9:30 a.m. - 12 noon; 2:00 p.m. - 5:00 p.m.

Tuesday, November 20 - 9:30 a.m. - 12 noon; 2:00 p.m. - 5:00 p.m.

Student Assembling and Robing Area- 1:15 p.m.

The Diploma and Degree graduands will assemble in the hallway on the main floor of the Centennial building overlooking the garden area. Please note that all gowns should be signed out between 10:00 a.m. and 1:00 p.m. in order that all participants may receive any necessary final instructions.

The Diploma in Education students should be first in line, just behind the entrance doors facing the elevator, followed by the:

Bachelor of Education
Diploma in Engineering Technology
Diploma in Forest Technology
Certificate in Environmental Forest Technology
Diploma in Library Technology
Bachelor of Science in Forestry
Bachelor of Commerce

Bachelor of Science in Nursing
Bachelor of Science
Honours Bachelor of Science
Master of Science
Bachelor of Arts
Honours Bachelor of Arts
Master of Arts

Order of Processions

At 2:00 p.m. the student procession, led off by the Marshall, Dr. T.B. Miller, followed by Mr. S.R. MacGillivray, will proceed from the Assembly area down the long hallway leading to the Registrar's Office, down the stairs into the Agora, and down the aisle on the right hand side, taking their places in the seats. Graduands are requested to remain standing.

Convocation

When the President and the Chancellor have taken their places on the platform "O Canada" will be played (Please sing), followed by the opening of Convocation by the Chancellor, after which all will be seated. (Follow the programme).

The graduand will approach the stairs on their left hand side, will present their identification card to their Dean of Faculty, will be presented to the Chancellor after which they will proceed across the platform, receive a "diploma cover" from the Registrar, continue down the stairs and resume their seats.

Recessional

At the close of the Convocation Ceremonies the Platform party will move off the platform, down the stairway on their left hand side of the platform (the opposite stairway from making their entrance). All will stand when the Platform party, led by the Marshall, bearing the Mace, commence to move out. They will be followed by the Board of Governors, the Senators, and the Faculty down the aisle to the back of the Agora and thence to the Faculty Lounge or the Great Hall. The graduates are requested to bring their parents and friends to the Chancellor's Reception in the Great Hall.

Please do not forget that your robes are to be returned to Room UC-2001 in accordance with the schedule outlined on the loan of academic dress form.

THE CHANCELLOR'S RECEPTION WILL BE HELD IN THE GREAT HALL AFTER THE CONVOCATION CEREMONY

Philosophy Club Speaker

Dr. Koilpillai J. Charles, Professor and Chairman of the LU Department of Economics, will be giving a public lecture on Thursday, November 15th, at 8:30 p. m. in Room 1021, Main Building. Dr. Charles will speak on: "The Mystery of Time - An Indian Philosophical Interpretation".

Dr. Charles, who has an M. A. from the University of Madras, India, and a Ph. D. from McGill, came to Canada in 1956 as a World University Service Scholar. He was made a Bronfman Fellow in 1958 and has been a faculty member at McGill and the University of Manitoba, where he taught graduate honours courses in economic development. He has also taught at Sir George Williams University and has been Professor and Head of the Department of Economics at American College, University of Madras. He has prepared submissions for the Committee on Manitoba's Economic Future and for the Royal Commission on Taxation and, journals, he is the author of a number of books including, *The Myth of Inflation*. In 1968, he completed a socio-economic survey of Kenora, with a grant from the Ontario Government. That same year, Dr. Charles received a fixed term appoint-

ment with the United Nations as an Economic and Social Affairs. He assisted the UN Centre for Development Planning, Projections and Policies in their work involving formulation of policy objectives for developing countries.

During the summer of 1971, at the invitation of the Canadian International Development Agency of the Federal Government, he prepared a study on "The World Economy in the Seventies".

As Chairman of the Economics Department he was responsible for setting up a Graduate Diploma programme in economic development to foreign students, sponsored by the Canadian International Development Agency of the Federal Government. This programme, which he now directs, was set up in 1970, and has attracted students from Asia and Africa.

Last year, on sabbatical leave from LU, he directed a UN empirical survey in India on the "Distribution and Utilization of Public Services in Tamil Nadu". And, somewhere, Dr. Charles also found time to write a book entitled *The Power of Negative Thinking and Other Parables from India*, which has been published by Orient Longman and is available at the LU Bookstore.

TELEVISION AND PHILOSOPHY

A panel discussion on "Scepticism or Faith?" that was held recently at LU, will be shown on Cable Channel 7 on Friday, November 9th at 8:30 p. m. Discussion participants include: The Rev. Fr. George Bourguignon, Chancellor, Roman Catholic Diocese of Thunder Bay; Miss Christine Kouhi, third year LU Honours Philosophy and History student; and The Rev. Kenneth Moffitt, Minister, First United Church of Fort William. Terence M. Penelhum, special visiting guest, is a Professor Philosophy and Religious Studies

at Calgary University, an author on the philosophy of religion, and Chairman of the Canada Council Advisory Panel. The moderator: Dr. William Morris, Chairman and Professor, LU Department of Philosophy.

A lecture by Professor Penelhum on the same topic, "Scepticism or Faith?" will be shown on Cable Channel 7 in the week beginning Monday, November 12th. Check your Thunder Bay Guide listings for the correct day and time.

CHRISTIAN INSIGHTS IN A CONFUSED WORLD

A series of free public lectures and panel discussions, sponsored by LU and the Thunder Bay Council by Clergy, will be offered during the winter. Entitled 'Christian Insights In A Confused World', this lecture series will be a continuation of the successful courses 'Christianity and Crisis' and 'The Debate about God and Man' which have attracted large audiences over the past few years. University faculty members and local clergymen will act as resource people for the subsequent discussion and participation stimulated by the lecturers.

The first speaker will be Gregory Baum who will speak on 'Dreams, Illusion and Faith' on Thursday, November 15th at 8:30 p. m. in the University Centre Theatre.

Gregory Baum is already well known in Thunder Bay. He has pioneered thought in the contemporary issues of ecumenism and Jewish-Christian relationships; and he has recently gained recognition for his work in the social sciences and their relationship to theology. He is a member of the Department of Religious Studies, St. Michael's College, the University of Toronto and the Toronto School of Theology. Recently, he spent two years at the New School for Social Research in New York, and since that time his teaching and sociological reflection have been strongly influenced by the dialogue with the social sciences.

The second speaker in this series will be Tim Ryan who will discuss 'The Christian Contribution to Man's Search for Liberation' on Tuesday, November 27th in the lower Lecture Theatre.

Further lectures in the series will be offered after Christmas when arrangements have been finalized.

CHRISTMAS FUN AND FROLIC

Believe it or not, Christmas is just around the corner, and that means it's time to start thinking about Lakehead University's Seventh Annual Christmas Party.

Friday, December 21st is the day. Mark it on your calendar now!

Where? Royal Canadian Legion, Ortona Branch, 1700 Dease Street, Thunder Bay (F)

Price? \$6.00 per person

Time? Happy (Half) Hour from 7 to 7:30 p.m.

Food? Ethnic Smorgasbord served at 7:30 p.m.

Music? Soft sounds by Roy Coran

Guests? Yes, guests are welcome.

Tickets will be available on the 3rd of December from members of the Committee and a few other members of Staff.

Committee Members are:

Gerda Laser, Chairman Jean Helliwell
Dave DeKnock Brian Phillips
Donna Hardy John Ryder

Bibliography on Women

Three copies of An Annotated Selected Bibliography of Bibliographies on Women by Dr. Margrit Eichler, Department of Sociology, University of Waterloo, have been presented to the LU Library by the AUCC Committee on the Status of Women.

Copies of the bibliography are available for sale (\$1.00 per copy, prepaid from The Publications Office, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, K1P 5N1

YORK/TORONTO SEMINAR

.....to develop a Bill of Rights and Responsibilities for Ontario Universities

The LU Information Office recently received the following article from the University of Toronto News Bureau. Included with the article was this note: "Our office was asked . . . to send you the enclosed information about the York/Toronto Seminar on the responsibilities of universities in the hope that you might find room for a report in your campus publication that is distributed to academic staff."

. . . publication at any time would be appropriate, as attendance is by invitation, the Seminar will extend over a considerable period of time, and the sessions are closed to others, including the press. The purpose of publishing the announcement is simply to make the project known to all members of the academic community in Ontario."

A group of 19 professors from York University and the University of Toronto, with a small number of representatives of the wider community, recently began a series of discussions the object of which is a restatement for this decade of the responsibilities of the universities and the conditions necessary to their assumption of these responsibilities.

Called the York/Toronto Seminar, the project is an outgrowth of conversations that took place between members of the Higher Education Group of the University of Toronto and a comparable group of York University over the academic year 1972-73. It is being supported by a grant from the Richard Ivey Foundation of London, Ontario.

Invited participants include Mr. Justice J.D. Arup, the Supreme Court of Ontario; Walter L. Gordon, Chancellor, York University, former Minister of Finance, Government of Canada; Christine Newman, Associate Editor, Maclean's Magazine, and John P. Robarts, Chancellor, University of Western Ontario, former Premier of Ontario.

The purpose of this project is to develop a statement of the responsibilities and essential requirements of universities -- it might be described as a Bill of Rights and Responsibilities of universities -- with particular reference to those in Ontario.

It is widely recognized that in society certain conditions must prevail if citizens are to be free men or if there is to be a free press. Similarly there must be recognition of the circumstances which must prevail if a university is to fulfil its role as a center of free inquiry and learning.

There is a very great and growing danger that the universities in Ontario will lose that part of their heritage which makes it possible for them to perform those functions which as universities they were created to carry out.

The problem relates to a changing social situation in which there is continual pub-

lic criticism of the universities, increasing governmental control of these institutions, and growing uncertainty within the university of its precise obligations.

Few would deny the justification of some of the criticisms or of the need for some government regulation of our universities. Yet it is clear that if continued and intensified these criticisms and controls could lead to restrictions that would hinder, if not prohibit, the traditional work of the university: teaching and research.

The central core of the university has always been a devotion to intellectual excellence. At its best the university brought together in a corporate life great minds (both faculty and students) and provided them with unusual freedom and protection to interact and to explore new ideas. The university was not merely to preserve the cumulative knowledge of the past but to discover and create new knowledge. In this free environment a thin stream of excellence was cultivated and fed into the social system. "Without the (constant) renewal of excellence", Sir Eric Ashby wrote recently, "a nation can drop to mediocrity in a generation." The university has, of course, other obligations but without this central core, it loses its fundamental purpose.

In Ontario, at the present time, this devotion to scholarship and to excellence is being seriously challenged. The Commission on Post-Secondary Education in Ontario, in its recent report *The Learning Society*, shows small regard for this tradition. The university, the report seems to imply cannot expect public support for esoteric studies or eccentric scholars. Further, the government's financial interest keeps expanding each year to various phases of the university's operations, including academic and research programs. Government bureaucrats, often of junior rank, make decisions that profoundly affect the life of our universities. Many members of the public are more aware of university problems than of university purposes.

In this situation it seems important to state clearly and precisely the responsibilities of universities in modern society and the requirements which must be satisfied, the "rights" which universities must have, if they are to fulfil these responsibilities. This is not to deny the need for change nor to reject the desirability of new programs -- indeed it is to state the new responsibilities universities must assume. But it must be said now -- before it is too late -- that if the university is forced to move in certain directions or to give up certain freedoms, it can no longer be considered a university. Such a statement is needed for universities throughout the Western world. One dealing specifically with Ontario universities will be general validity.

To reiterate: just as certain conditions must exist if we are to have a free press so must certain other conditions exist if

we are to have a free university.

To determine and define these conditions is the purpose of this project: to define a Bill of Rights and Responsibilities for Ontario universities.

This, of course, is an extremely complex and difficult task. It has not been done before -- in Ontario or in any other jurisdiction. But the attempts must be made. If it succeeds a historic document will result.

The project is to be carried out by the Higher Education Group of University of Toronto and a comparable group at York University. This is a group of senior professors from both universities who have been meeting over the past year to discuss common problems and joint programs of study in higher education. The members of the group are:

Dr. Robert S. Harris, Professor of Higher Education and University Historian, University of Toronto.

Mr. Bertrand L. Hansen, Associate Professor of Higher Education, University of Toronto, and Director of Research, Council of Ontario Universities.

Dr. John B. Macdonald, Professor of Higher Education, University of Toronto, and Executive Director, Council of Ontario Universities (former president of University of British Columbia), (Co-Chairman of the Seminar).

Dr. Murray G. Ross, University Professor, York University (former president of York University), (Co-Chairman of the Seminar).

Dr. Edward F. Sheffield, Professor of Higher Education and Chairman of the Higher Education Group, University of Toronto.

Dr. Richard Storr, Professor of History, York University.

Dr. D. McCormack Smyth, Professor of Social Science, York University (former Dean of Atkinson College, York University).

Dr. Malcolm G. Taylor, Professor of Administrative Studies, York University (former president of the University of Calgary and of the University of Victoria).

In order to finance the seminar the Richard Ivey Foundation of London, Ontario, has provided a grant of \$10,000.

The plan is to organize a seminar of 25 persons who will meet at approximately fortnightly intervals during the winter of 1973/74, 10 professors from each of the University of Toronto and York University, 5 or 6 persons knowledgeable about the problems of high education but who are not academics -- from the fields of government, business, the arts, the courts, the health professions and the press. In addition, one guest from each of the United States, Britain and Continental Europe will be invited to speak to and participate in sessions early in the series. All regular members will be expected to carry on exploration of the topic between sessions and the meetings themselves must be intensive work sessions.

BUSINESS PROFESSOR WRITES AND SPEAKS

An article written by Bernard A. Hodson, Associate Professor of Computer Systems, was published in the October issue of the Canadian Information Processing Society Magazine. Entitled "A Basic Approach to Systems Analysis", the article was a precis of Mr. Hodson's book *Modern Data Processing for Management* recently published by MacMillan of Canada.

"The Future is Here Now! was the title of a speech given by Mr. Hodson to members of the Fort William Rotary Club at their October 24th meeting. The October 26th issue of *The Fortarian* had this to say about Mr. Hodson's address: "Listeners received the impression that they were in on a glimpse at the future and of the person who would have a very significant part in moulding it, particularly in the field of computer applications. Mr. Hodson has developed a computer product that will be making a substantial impact on the computer industry."

YOU NEVER CAN TELL

Mr. L. S. Lamba is taking his English 348 - Kenora - class to a production of George Bernard Shaw's 'You Never Can Tell' in Winnipeg on Saturday, November 10th.

ENROLMENT PICTURE

On October 24, the Minister of Colleges and Universities announced that preliminary reports from universities indicate a possible increase in December 1 full-time enrolment of about 3%. Compared to last year's undergraduate total of 121,212, this year's may be 124,940 or within 1% of the number projected. First year enrolment may reach 37,312, almost 5% more than in 1972-73, despite a decrease in Grade 13 enrolment for the past two years. Many enrolment reporting officers have indicated a shift in undergraduate enrolments toward professional and career-oriented programs. Enrolments in commerce and finance and engineering are up at several universities. Many stop-outs who took time out between high school and university have resumed their studies with career-oriented goals which are reflected in their choice of programs.

Full-time graduate enrolment may reach 13,305 compared to 13,128 in 1972-73. The enrolment picture for part-time students is far from clear with some universities reporting increases and others decreases or a steady state. However, some increase is expected when the final counts are submitted early in November.

STUDENT PLACEMENT INFORMATION

Bank of Montreal - Representatives will be here to provide information sessions to anyone interested in banking careers on Friday, November 9th in the Alma Mater Council Chamber, Room UC-2015. Deadline for applications will be November 13th, first interviews for all that apply will be November 23rd, and final interviews December 7th.

I.B.M. - Interviewing Degree students in Engineering, Science and Commerce on November 15th and 16th for Data Processing Marketing Representatives and Data Processing Systems Engineering Representatives.

1974 - Career-Oriented Summer Employment - Government of Canada - Students intending to return to their studies in 1974-75 in all disciplines are invited to apply. Deadline for applications will be January 10, 1974. Canadian citizens have statutory preference. National Research Council Summer Employment - Applications submitted by November 21st to the Student Placement Office from first class honours students in Science and Engineering Degree programs.

Stelco - Will be interviewing Commerce Degree, Engineering Degree and Engineering Technology students in late November.

Canadian Conservation Institute (Branch of National Museums of Canada) is recruiting graduates for training as professional conservators in the fields of fine arts, ethnology, archaeology, history and archives conservation. Requirements are Honours B.A. in Art History, Studio Art, or Archaeology; or Honours B.Sc. with a strong minor in one of these areas. Further information is available at the S.P.O. Deadline for receipt of applications is December 1st.

areas not included above. The applications for the definite job areas listed will be pre-screened in Toronto and the students that the Ontario Public Service is interested in will be interviewed on January 21st. Copies of the O.P.S.

Ontario Civil Service - Will be accepting applications through the S.P.O. from November 5th until Wednesday, December 5th. Definite vacancies areas include: Administrative Trainees, Biolo-

gists, Community Planners, Foresters, Human Rights Officers, Land Use Planners, Welfare Field Workers, Civil Engineers. As well, an inventory of applications will be set up for other job "Guide to Careers" are available at the S.P.O.

Royal Bank - Will be interviewing Economics, Commerce, Graduate Business Diploma, Business Administration students genuinely interested in banking careers on December 5, 6, and 7th.

Public Service Canada - Has openings for Programmers. This would be of interest to any graduating students with significant computer experience: applications should be submitted as soon as possible.

Summer Employment -

Prince Albert Pulpwood Limited will be here to interview 1st year Forestry Degree students on November 20. Contact Bob Armstrong to arrange for an interview time.

MacMillan Bloedel will be interviewing 3rd year Forestry Degree students on November 21st. Deadline for applications is November 12th.

The Employment Opportunities Handbook - Canada 1973-74 is available to be picked up on the tables outside the Student Placement Office. Students are urged to read through this booklet and to choose organizations in which they are sincerely interested, and to which they wish to have a resume submitted. Discuss your preferences with the Student Placement Office. In the office further recruitment material is available for many of the organizations listed in the Handbook.

Organizations not coming to our campus to interview at this time, will accept resumes from interested students and will likely be encouraged to come to campus if the response is great enough.

NOTE: All information about recruiting schedules, part-time jobs, summer and permanent employment is on the bulletin board outside the Student Placement Office. All students are urged to register with Student Placement now and to keep checking the bulletin board for information.

EXHIBITION

from the Art Gallery of Ontario
"NIAGARA FALLS"

Niagara Falls as seen by artists from the mid-nineteenth century on: a colourful collection of lithographs, engravings, etchings and aquatints.

Lakehead University - 9th to 19th* November

The Confederation College - 21st to 29th November

*Restricted Saturday, 17th to invited Convocation guests only.

This exhibition is a co-operative venture of The Art Gallery of Ontario, The Aesthetics Society, the University, the College, and the Ontario Arts Council.

CONSORTIUM NEWS

Video College?

The Duluth office of the National Tele-Prompter Corporation (cable television) has offered to help the Lake Superior Association of Colleges and Universities develop a co-operative network for 'cablecast' teaching to serve all Consortium institutions. In brief, a faculty member from one institution would tape lectures in his specialty which would then be duplicated, sent to area affiliates, and played simultaneously as the core lecture in a regular academic course for all Association students. The programme offers some exciting possibilities for sharing resources and overcoming the disadvantages of geographical separation.

Faculty Directory

The Association will soon begin compilation of a directory of faculty according to special research or teaching interests to assist those with similar concerns in getting together. The Consortium is also looking into the possibility of a directory of course offering, by discipline, for all six Association institutions.

Linguistics

Professor Edith Hols, UMD Department of English, would like to hear from faculty with an interest in linguistics. Professor Hols is currently developing a minor in comparative linguistics at UMD.

Audio-Visual Catalogue

C. M. Milbrath, Department of Secondary Education at UMD, is heading an Association committee to study the possibilities of developing a computerized index catalogue for all non-print material held by the Association. This would represent a great advance over the common practice of cataloging by accession number, dates or media mode.

PUBLIC INVITED TO 'MAN AND HIS ENVIRONMENT' CONFERENCE

Politicians, environmentalists, scientists, and social scientists from 20 countries are coming to Canada next May.

They will be attending - 500 strong - the second international conference on "Man and His Environment". Scheduled for May 19 - 22 in Banff, the conference will focus on a number of themes.

According to Conference Chairman, Dr. M. F. Mohtadi, of the University of Calgary chemical engineering department, topics include natural resources; limits to growth; population, production, and pollution; man in the technological world; social, economic, moral issues; and looking ahead.

Participation in the conference is open to anyone interested in the preservation of the natural environment.

by Geraldine Service

Lakehead University's annual meeting with the Committee on University Affairs was held in the Senate Chambers on Tuesday October 16th. The Committee meets each year with the provincially assisted universities visiting the campuses on an annual rotating basis. Each year some universities meet the Committee on another university's campus. The Committee had last visited Lakehead in the fall of 1970.

At our meeting on the 16th, we formally presented our Fall 1973 Brief to the Committee. The Brief contained items of special interest to the University as well as answers to the specific questions previously sent to us by the Committee. Through the Briefs submitted by the universities and through the meetings, the Committee on University Affairs attempts to obtain, as stated by the Chairman, Dr. Reva Gerstein, "such substantive arguments and documentation which will strengthen the case for an adequate global financial figure for the entire system."

The Committee, which is an advisory body to the Government, recommends on such items as the Basic Income Unit Value,

FALL 1973 MEETING WITH THE COMMITTEE ON UNIVERSITIES AFFAIRS

any extra-formula grants universities should receive and on requests for approval of new academic programmes. We previously requested the approval of, for example, our Bachelor of Arts/Bachelor of Social Work programme and our Honours Bachelor of Science in Medical Laboratory Sciences programme. Both of these were approved and were introduced this year. We did not submit requests in this year's Brief for approval of any new programmes.

At our meeting, the topics which especially interested members of the Committee were the extensive co-operation between Confederation College and the University; mobility of students particularly from technology programmes to degree programmes; our deferred credit system; reactions of universities to changing student preferences; and research support for faculty members in Departments which do not have the research support of graduate students.

Following the Meeting, the Committee joined representatives of the University at an informal luncheon and later Dr. Booth took the members on a tour of our campus.

GRADUATE SCHOLARSHIP PROGRAMME

Last issue LU Week reported the implementation of a new Ontario Graduate Scholarship Programme which will provide \$3 million to assist one thousand of outstanding academic ability to pursue graduate studies at Ontario universities. Each of Ontario's 15 provincially assisted universities will nominate ten students for these scholarships and the chosen scholars will take graduate studies at the university which nominates them.

LU Dean of Students, John Kerr, has circulated material pertaining to the Graduate Scholarship Programme to the Chairman of those departments which offer graduate studies. Dean Kerr has also sent letters about the programme to all full and part-time honours students. He asks that all students intending to apply to the programme check with his office so that application errors can

be avoided. The deadline for applications is December 1st.

The committee that will review the applications and choose the final ten candidates consists of: The Dean of Arts, the Dean of Science, the Registrar, and the Chairman of the Graduate Studies Committee. The committee will be chaired by the Dean of Students and Mrs. Bobby Hannah, Assistant to the Dean of Students, will act as secretary.

The scholarships will provide \$800 a term plus graduate tuition and related fees for either two or three consecutive terms. The maximum award under the programme is approximately \$3,500.

Applicants for scholarships must have a very high level of academic achievement with first class standing in their major subject areas.

ENGINEERING CHAIRMAN PRESENTS PAPER

Dr. George K. Fleming, Chairman of the School of Engineering was invited to present a paper to the Symposium on Computers in Science and Industry organized by the members of the Sheridan Park re-

search community. The title of Dr. Fleming's paper was "Minimising Energy Costs in Manufacturing Processes". The symposium was held at Sheridan Park, October 23, 24.

COU RESPOSE TO REPORT OF THE COMMISSION ON POST-SECONDARY EDUCATION IN ONTARIO

The work of the Commission on Post-Secondary Education has occupied a good deal of the attention of the Council of Ontario Universities in the period of over four years since the Commission was established in April of 1969. The Council's brief to the Commission, prepared by the Committee on Research and Planning, was presented early in 1971, and subsequently published in book form by McClelland and Stewart under the title Towards 2000. Reactions to the Commission's Draft Report from the Council and various COU committees and affiliates were published in May, 1972 under the title Responses. When the final report of the Commission was published at the end of 1972, COU again asked its Committee on Research and Plan-

ning to assist with the preparation of the COU response, and at the September, 1973, meeting, the Council approved its response to the report. This latest document undertakes a selective rather than comprehensive treatment of the report, since opinions on most of the matters in the report which concern the universities had already been expressed in the earlier documents.

The latest document isolates a few subjects believed to be of particular importance: the place occupied by high standards of quality in the Commission's priorities; the structure of the system; the financing of the system, especially the proposal relating to research financing; student aid; and the place of examinations in licensing for professional practice.
