NUMBER 8

SEPTEMBER 27, 1973

Dr. Eldon To Join Energy Board

Dr. A.D. Booth, President of Lakehead University, recently announced the resignation of Dr. W.D. R. Eldon, Vice-President (Academic) and professor of Economics. Dr. Eldon has been named a member of the Ontario Energy Board in Toronto. His duties will commence October 1, 1973.

Dr. Eldon was named to the then newly-created position of Academic Vice-President in May 1971 and took up the duties of his office in September of that year. His position carried with it the responsibility for providing academic leadership and for co-ordinating academic activities, policies and plans as determined by Senate. Dr. Eldon served with distinction on a number of university and university related committees including Chairmanship of: The Athletic Advisory Board, The United Nations University Committee, The Academic Plan Committee, and The Lake Superior Association of Colleges and Universities Steering Committee. As well, Dr. Eldon served as a member of a number of Senate Committees. Dr. Eldon received his B.A. at the University of Western Ontario, taking the gold medal in Honours History. He received his M.A. and Ph.D. in Economics from Harvard University. He is the author of a number of publications and has prepared studies for the Economic Council of Canada.

Dr. Eldon has served as a consultant to a number of Royal Commissions and was an Associate in the consulting firm of Kates, Peat, Marwich and Company. Prior to his joining Lakehead University, Dr. Eldon was Associate Dean of Arts and Science and Acting Chairman of the Department of Economics and of the Department of French Studies at Trent University. He is a Fellow of the Royal Economics Society, and a member of the Canadian Economics Association, American Economic Association and the Information Industry Association.

He and his family have been active in various Thunder Bay clubs and associations and were active members of St. John's Anglican Church. The Eldons will take up residence in Oakville, Ontario.

We wish Dr. Eldon well in his new position.

British MP To Speak At LU

Dr. Engholm, Chairman of the Political Studies Department, informs L.U. Week that the University will be visited on Friday, September 28 by Mr. Cecil Parkinson, MP for the British Constituency of West Enfield. Mr. Parkinson is Parliamentary Private Secretary to the Honourable Mr. Michael Heseltine, Minister for Aerospace in the Department of Trade and Industry.

During his visit Mr. Parkinson will deliver a talk on "Canada, Britain and the EEC" at 3:30 p.m. in RB-1022 (Ryan Building) on Friday, September 28. The Chair will be taken by the President, Dr. A.D. Booth. All faculty, staff and students are cordially invited.

Mr. Cecil Parkinson has been a member of the House of Commons since November 1970. He became Parliamentary Private Secretary to Mr. Michael Heseltine after the latter had been appointed Minister for Aerospace in the Department of Trade and Industry in April 1972. He is a chartered accountant by profession.

Born on 1 September 1931, he was educated at the Royal Lancaster Grammar School and Emmanuel College, Cambridge, where he read English and Law, graduated BA in 1955 and took his MA in 1961.

He is a partner in the firm of chartered accountants, West, Wake Price and Co. which now comprises five companies. He is also a director of several companies specializing in financial and taxation advisory work. He has travelled widely on the Continent of Europe, in the United States and in the Caribbean on business.

LU Flier Races to Strong Finish

Back in the days when flying was a risky, seat-of-the-pants adventure, the men who flew were often called (among other things) "intrepid". That term is seldom used today as flying has progressed to the point of mechanical boredom. But here, at LU, there lurks at least one "intrepid" flier. His name is Guy Davis - a computer centre staff member.

Guy piloted a fabric-covered CHAMPION CITABRIA to a seventh place finish in the recent Great Burlington Centennial Seaplane Race. The GBCS Race - the first race of its kind held in Canada - contained three "legs": Burlington to Kenora, Kenora to Ottawa and Ottawa to Burlington. Guy, who has a commercial license and instructor rating, logged 25 airborne hours during the three day event - including a gruelling 14 hour stint

on the first leg - and garnered the Minaki Lodge (Kenora) Trophy as first leg winner.

The single engine, two-seater CHAMPION CITABRIA - originally built in 1935 and now owned by the Thunder Bay Flying Club - has no instruments except a compass. Consequently, Guy sight-flew the course to his seventh place finish (out of 48 entrants) and picked up a 1,000 dollar cheque for his efforts - not quite enough to cover expenses but then, "intrepid" fliers like Guy Davis don't do it for the money.

Finnish Lecturer Arrives

Miss Maija Kainulainen, a Helsinki University graduate student, has joined LU's Language Department. She will lecture at the newly instituted Finnish language and culture courses being offered here. LU - in direct response to a request from the community - is the first Canadian University to include Finnish courses in its programme.

The request for courses of this nature came as a result of the work of Mrs. T. Kahara, who has implemented Finnish programmes at Hillcrest and Hammar skjold high schools, and Mr. E. Peterson, Chairman of the Finnish School Committee. At present there are 93 students studying Finnish as a second language in Thunder Bay. The LU courses will allow these students, as well as other members of the community, to continue their studies. The local Finnish population of approximately 10,000 is the largest in Canada.

Negotiations were undertaken with the Finnish government who have provided Miss Kainulainen as a lecturer for the course.

New Liason Officer

Mrs. Susan De Haas was installed, in early August, as LU's Liaison Officer. She, along with other members of the University Information Programme, is currently travelling to high schools across the province where she explains LU and area to interested students and guidance staff. Mrs. De Haas received her B.A. in French from the University of Guelph and her Honours in French and English from Lakehead University. As well, she has completed her Masters (English) to thesis here.

Students Shine For Cystic Fibrosis

LU nurses and foresters got together and staged a Shinerama last Friday, September 21st to raise money for Cystic Fibrosis. They, along with other LU students, brushed and polished their way to \$4,454 dollars for the cause - leaving no shoe unshined in their efforts to make the most out of a couple of feet.

Committee On University Affairs At LU

The Committee on University Affairs will be meeting in the LU Senate Chamber on October 16. The Committee, which acts as a Government ad-

visory body, is, this year, moving across the province from university to university - eliciting answers to questions, covering a broad spectrum of university related affairs, previously submitted to each university. A brief is presently being readied to answer the Committee's questions about LU. It will also cover several topics of special interest to this university not covered by the Committee's inquiries; including sections dealing with extra formula funding, LU's extension programme, early university entrance for exceptional children and the Confederation College/LU co-operative BA/BSW programme.

World Report Premieres

World Report began its new season on CTNO-TV Channel Seven last Tuesday, September 25th at 7:30 p.m. Hosted by LU's Dr. Chris Jecchinis and Dr. E. Zimmerman, the programme, which will be a weekly feature, deals with national and international news. This live presentation features audience participation by telephone.

Combined Biology Field Trip

During the week of August 6, Dr. Ozburn of the Biology Department participated - along with professors from Wisconsin State University - in the presentation of a wilderness Biology course. This course, available to students of the newly formed Lake Superior Association of Colleges and Universities was held on Isle Royale. Students and staff rendezvoused at Grand Portage for the trip to Washington Harbor on the vessel "Wenonah". Upon arrival and subsequent signing in with the ranger, subgroups backpacked to various points of biological interest at the western end of the park. Dr. Ozburn's group hiked the Minong Ridge Trail to Lake Deser where time was spent observing moose feeding habits. Other animal and plant life was observed along the route. On the return trip to Washington Harbor, a side trail to Hugginnin Cove was explored. In addition to the wild life observed, a number of old copper mines - likely the original reason for the trails, were examined.

To earn their credit, the students were required to keep a log of all activities including observations arising from the discussion on the wilderness areas visited. Upon return these logs were then transcribed into a report for submission to obtain a grade.

Dr. Ozburn hopes that in the future, Lakehead University students may have the opportunity of participating in courses of this nature as a result of our involvement in the consortium.

Faculty And Staff Appointments

FACULTY OF ARTS

Mr. C.C. Mutambirwa, Lecturer, Department of Geography.

Dr. H. Seyffert, B.A. M.A. Ph.D., Assistant Professor, Department of Languages

Mrs. Clara Kaipio, Lecturer, Department of Languages

Student Placement Notes

The Public Service Commission of Canada will be holding a CAREER DAY on campus on OCTOBER 1st. There will be information sessions open to all graduating students who are interested in careers in the federal government. Undergraduates are also invited to attend as these sessions may prove helpful in career planning. Please note the time and location of each sitting:

ADMINISTRATIVE TRAINEE PROGRAM (open to graduates in all disciplines)

9:40 - 10:30 a.m. University Centre Theatre

10:40 - 11:30 a.m. - UC 1017

FOREIGN SERVICE OFFICER (open to graduates in all disciplines)

9:40 - 10:30 a.m. Lakehead University Stu-

dent Union Boardroom - UC

1:30 - 2:30 p.m. 2014

2:40 - 3:30 p.m.

AUDITING/ACCOUNTING

9:40 - 10:30 a.m. Aesthetics Lounge

10:40 - 11:30 a.m.

ENGINEERING/ARCHITECTURE

2:30 - 3:30 p.m. Lower Lecture Theatre

3:40 - 4:30 p.m. UC 0050

NURSING

1:30 - 2:30 p.m. MB 1001 A

2:40 - 3:30 p.m.

PURE SCIENCES (Biology, Chemistry, Forestry, Geology, Mathematics)

1:30 - 3:30 p.m. Senate Chambers - UC 1001

2:30 - 3:30 p.m. Upper Lecture Theatre UC 2011

ECONOMICS /MATH/STATS/AGRICULTURE

ECONOMICS /ECONOMIC GEOGRAPHY

1:30 - 2:30 p.m. Ryan Building - RB 3046

2:40 - 3:30 p.m.

PSYCHOLOGY/SOCIAL WORK/CRIMINOLOGY

1:30 - 2:30 p.m. MB 1025

2:40 - 3:30 p.m.

If students are unsure of which sessions to attend or would like further information they should contact the Student Placement Office immediately.

The following deadlines should be observed by graduating students interested in any of the aforementioned programs or others included.

OCTOBER 2 Information session with the Atmospheric Environment Service (federal government) to familiarize graduating physics students with careers in meteorology. 1:30 - 2:30 p.m. Senate Chambers - UC 1001

OCTOBER 12 Last date to pre-register for the written exam for the Public Service of Canada, Administrative Trainee and Foreign Service programs.

OCTOBER 15 Deadline for applications for Meteorological Branch of the Atmospheric Envir-

OCTOBER 18

onment Service.

Written exam for Public Service Canada, Administrative Trainee and Foreign Service programs.

7:00 p.m. - Upper Lecture Theatre - UC 2011

OCTOBER 18

Written exam for Foreign Service

7:00 p.m. - Ryan Building RB 2047

OCTOBER 18

Deadline for applications to Bell Canada for graduating students interested in careers and for students graduating in 1975 seeking summer work.

OCTOBER 29

Public Service Canada interviews for Economists and Statisticians.

OCTOBER 29,30,31

Public Service Canada interviews for Administrative Trainee Program.

ALL STUDENTS WHO WILL BE GRADUATING THIS YEAR ARE URGED TO REGISTER WITH THE STUDENT PLACEMENT OFFICE AS SOON AS POSSIBLE AS MOST ON-CAMPUS RECRUITING WILL OCCUR BETWEEN NOW AND CHRISTMAS. A SCHEDULE IS POSTED ON THE BULLETIN BOARD OUTSIDE THE OFFICE AND IT WOULD BE TO YOUR ADVANTAGE TO BE AWARE OF WHAT OPPORTUNITIES ARE AVAILABLE.

Parking Committee

The new members of the Parking Committee are Dr. N.A. Weir, appointed by the Lakehead University Faculty Association; Mr. J.D.M. Robson, appointed by the Lakehead University Students' Union; and Mrs. Geraldine Service, appointed by the President to represent the Administrative Staff. Members of the Committee normally serve for a two-year term. The Parking Committee has the authority to establish and amend parking regulations, to review and decide on appeals, and to recommend parking fees to the Board of Governors for its approval.

The parking fee structure which was recommended by the last Committee and approved by the Board of Governors is as follows:

- (i) For permits valid from October 1st, 1973 to August 31st, 1974

Faculty/Staff Vehicle	\$15.00
Full-time Student Vehicle	\$15.00
Residence Student Vehicle	\$15.00
Part-time Student Vehicle	\$ 5.00
Motorcycle, scooter, etc.	\$ 5.00
Visitor's Vehicle	
(Unlimited entry)	\$15.00
- (ii) For permits valid from May 1, 1974 to August 31, 1974, the fee is \$5.00.
- (iii) For permits valid from July 1, 1974 to August 31, 1974, the fee is \$2.50.

- (iv) For a temporary visitor's permit, valid for the date issued, the fee is 25¢.

The increase in fees is intended to offset increases in salaries and in charges for electricity and contracted services (e.g. snow removal). Parking must be a self-supporting operation. The 1972-73 year of operation resulted in a deficit which has had to be carried forward.

The 1973/74 Traffic and Parking Regulations come into effect on September 1, 1973. Parking permits for 1973/74 are required by October 1, 1973. Copies of the Traffic and Parking Regulation and Applications for permits are available from the Security Office.

Some of the highlights of the 1973/74 Traffic and Parking Regulations include:

- (i) unrestricted parking (i.e. all permits) in the lot near the Regional School of Nursing Building, the lot between the library and the Residences and the lot beside the Centennial Building. In the past, the Regulations provided for each lot to be restricted to Faculty and Staff or to Students.
- (ii) parking in the Agora Circle is restricted to vehicles with temporary visitors' permits.
- (iii) the parking permits are back to the type to be affixed to the inside of the window.
- (iv) "wheel blocks" will continue to be in use. Cancellation of parking privileges will result from damage to or unauthorized removal of a "wheel block."

Co-operative Library System

The June issue of C.O.U.'s Monthly Review reported that C.O.U. has approved the establishment of a Co-operative Library System for the fourteen provincially assisted Ontario Universities. The main activities of this system would be:

1. The creation of a Union Catalogue or Union Data Bank of holdings of Ontario University Libraries designed to provide a variety of bibliographical and processing functions more efficiently, easily and hopefully more economically than is possible at present.
2. To investigate the feasibility of Depository Library, i.e. a centralised store for the deposit of little used material which would be available on loan to any of the libraries concerned, and to survey the cost of such a depository, and the possible resulting savings in capital expenditure.
3. To establish an office for the Ontario University Libraries Co-operative System with a Director who would act as the pivot of the system and provide the necessary co-ordination of effort and provide the necessary co-ordination of effort. The office would act as a centre for information both on the system and on more general library matters.
4. To continue existing co-operative schemes already launched by co-operation between two or more libraries and to develop these. They include a Government Document project, a Union List of Serials project, a Subject Authority project and a Map project.

A Monograph Demonstration project is proposed to examine the possibility of such a province-

wide Union Data Bank and its associated services. Lakehead is not one of the six in the experiment but will stand to benefit from the lessons learned from it. If it is successful and shows that the service can be extended to all of the university libraries the advantages could be far-reaching.

C.O.U. has now announced the appointment of the Director of the Co-operative System. He is Dr. Ralph Stierwalt, Assistant Director of Libraries/Processing Division, University of Western Ontario. In the coming year Dr. Stierwalt will devote only a limited part of his time to the work of the Office under a secondment arrangement but will take over full-time in 1974. Assisting Dr. Stierwalt during the initial year will be Mr. Larry Porter, Assistant Librarian for Systems and Development, University of Guelph, serving on a secondment basis until June, 1974.

Credit Union Notice

All Lakehead University employees are reminded that they are eligible to be members of the Thunder Bay Educational Employees' Credit Union Limited which serves employees and relatives of employees of all educational institutions in the Lakehead area.

T.B.E.E.C.U. has recently moved into new premises at Suite C, Ruttan Block, 4 Court Street, Thunder Bay "P" (opposite Eaton's). Office hours are 1:45 p.m. to 5:45 p.m. weekdays. The Secretary-Manager is Mr. Dave Joyal and the phone number is 344-2233. The Credit Union offers facilities for interest-earning savings and low cost loans. Payroll deduction is available to University members who complete application formalities before the end of September.

Further information may be obtained from University officers of the Credit Union: Walter Bilyk MB-1043B (ext. 407), Dave Elliot MB-1061 (ext. 438) or Tom Harris RB-1011 (ext. 303).

Published

Dr. Pradip Sarbadhikari, Department of Political Studies, has returned from his sabbatical leave during which he published a book under the title "New Nationalism and International Society" (World Press). This volume studies the trends towards conflict both within Western and Third World states focussing on contemporary movements towards international co-operation suggested by recent developments in global diplomacy. Essentially, the book investigates the paradox of nationalism as enunciated by Karl Deutsch "while nationalism has grouped people apart from each other, at the same time it is preparing them for a more thorough going world wide unity than has ever been seen in human history."

Dr. Sarbadhikari also published a chapter entitled "Towards a Foreign Policy of Bangladesh" in a volume called "West Bengal and Bangladesh. Perspectives from 1972", by Michigan State University, which also contains contributions by Stephen Clarkson (Toronto), Richard Tabora (Harvard), and Barrie Morrison (U.B.C.).

Dr. Brian J. Bigelow, B.A. M.A. Ph. D., Lecturer, Department of Psychology

Dr. R.P. Fisher, B.A. M.A. Ph. D., Assistant Professor, Department of Psychology
FACULTY OF UNIVERSITY SCHOOLS

Dr. D.J. Malcolm, B.Sc. M.Eng. Ph.D., Lecturer, Department of Engineering

Mr. D.E. Meyers, Technical Assistant, Department of Engineering

Dr. John G. Locker, B.Sc. M.Sc. Ph.D., Associate Professor, Department of Engineering

Miss J.T. Stupendick, Technical Assistant, Department of Forestry

Mr. C.R. Birston, Technical Assistant, Department of Forestry

Dr. H.C. Cumming, B.A. M. Wildl. Mgmt. Ph.D., Associate Professor, Department of Forestry

Mr. S.T.B. Losee, Special Lecturer, Department of Forestry.

Dr. L.N. Burkett, B.A. M.A. Ph.D., Assistant Professor, Department of Physical and Health Education

Dr. R.T. Mitchell, B.A. M.A. Ed.D., Assistant Professor, Department of Physical and Health Education

Economics Notes

Dr. K.J. Charles gave a talk on the "Distribution and Utilization of Public Expenditures in Tamil Nordu" at a Seminar of the World Bank in Washington, D.C. on August 28, 1973.

Dr. K. Kim is the co-author of an article on the "Dynamics of Wage Structures", which was published in the *Southern Economic Journal* of April 1973.

Dr. C. Jecchinis attended the 3rd World Congress of the International Industrial Relations Association in London, England from September 1 to September 7, 1973.

Mr. C. Nicolaou attended the 14 Biennial Seminar of the Canadian Mathematical Congress which was held at the University of Western Ontario from August 12 to August 25, 1973. The theme of the Seminar this year was the "Optimal Control Theory and its Applications". Mr. Nicolaou's participation was funded by the Canadian Mathematical Congress.

Psychology Note

Two members of the Psychology Department of Lakehead University participated in The American Psychological Association's 81st Meeting held in Montreal, Quebec on August 27 to 31st.

Dr. Jim Evans read a paper entitled "A possible relationship between rivalry and impending social comparison". Mr. Arie Bonder is second author of this paper and is presently a graduate student at Lakehead University in the Department of Psychology.

Dr. Ed. Bauman read a paper entitled "Input and output interference in schizophrenic short-term memory". Mr. Eugene Kolisnyk is second author of this paper and is a graduate of Lakehead University in the Department of Psychology.

Language Department

David W. Lewis, Associate Professor of Modern Languages, returns to the Department of Languages after a sabbatical year spent in France. In June 1973, the University of Paris (Sorbonne) awarded Professor Lewis a mention très honorable for his doctoral theses on the 19th-century French poet Verlaine.

In his study, *Poésie et conscience chez Paul Verlaine*, Professor Lewis examines the creative processes of a poet who, with Baudelaire, Mallarmé and Rimbaud, became a hero of the Symbolist movement. Verlaine's work is diverse. Its numerous variants and his well-documented life show that, both as man and as artist, he sometimes sought to create a façade, to delude himself and his reader. His finest work, with its characteristic musicality and fragile evocative imagery, demonstrates superb craftsmanship, yet retains a naïve, spontaneous quality based on a poignant search for clues to the enigma of existence.

Apart from his teaching and research, David Lewis will be co-operating with Alain Nabarra in production of the Thunder Bay television programme in French, *Dans le Sillon des Voyageurs*, for which federal and provincial grants were recently awarded. The programme will be shown weekly on Channel 7.

Philosophical Appointment

Professor R.C.S. Ripley of the Department of Philosophy was elected to the Board of Directors of the Canadian Philosophical Association at its Annual Congress at Queen's University, June 4-8, 1973, where he delivered a paper, "A Theory of Volition". In July he was appointed to the Board of Referees of papers for the C.P.A. 1974 Congress in Toronto.

Nelson Elected To C.I.M. Post

Professor Ronald A. Nelson, School of Business Administration, was recently elected to the office of Education Director for the Canadian Institute of Management, Thunder Bay branch.

The Canadian Institute of Management provides an opportunity for those in the management field to better qualify themselves for their present position and to prepare for future advancement through a four-year programme of instruction leading to the "C.I.M. Certificate".

Additional N.R.C. Grant

In June, 1973, the National Research Council announced an additional Grant to Lakehead University, Department of Physics - \$6,000.00, D.G. Frood.

Extraordinary Faculty Member

Dr. J.S. Griffith, Department of Mathematical Sciences, was one of ten Canadians invited to the Extraordinary General Assembly of the International Astronomical Union held in Poland during the first two weeks of September as the

weekly events

Friday
September 28
Saturday
September 29
Monday
October 1

—Nite Club "Blue Things", Main Cafeteria 9:00 p.m.
—Nite Club "Blue Things", Main Cafeteria 9:00 p.m.
Art Exhibit, Great Hall, 10 a.m. to 10 p.m.
Xaviera Hollander, author of "The Happy Hooker", C.J. Sanders Fieldhouse, 8:30 p.m.
Talk, Panel Discussion and question and answer session.

Art Exhibition

There will be an exhibition from the Art Gallery of Ontario, Extension Division, from Saturday, September 29 - Thursday, October 4, in the Great Hall, 10 a.m. to 10 p.m. The subject is "Swedish Posters" and is described as expressing "the traditional role of the poster as a contemporary form of communication". The artist "with the advancement of materials and technology, has adapted new processes and exciting forms at will... to create new visual experiences and aesthetic expressiveness in the poster."

LU Alumni

Lakehead University Alumni cordially invites all faculty, staff, potential 73-74 graduates and especially students who will be graduating during the 1973 Fall Convocation, to attend the first Annual Oktoberfest on October 5, at 9 p.m., in the Main Cafeteria. Tickets may be obtained at the L.U.S.U. office or by telephoning the Alumni office at extension 732 between 12 noon and 4 p.m.

culmination of the Polish commemorations of the 500th anniversary of the birth of Copernicus. The particular set of meetings that Dr. Griffith attended was concerned with the stability of small stellar systems and of the solar system. He presented a paper on escape and capture conditions for the n-body problem, dealing with equations from which the possibility of the escape of a particular body (star or planet) from a system of n such bodies or its capture by n other bodies can be decided. At the seminar it was pointed out that such theoretical equations are of great benefit to those astronomers engaged in computer aided simulations of the orbits of bodies such as asteroids, stellar clusters or galaxies. These astronomers need a set of criteria to decide whether particular bodies have really escaped from or been captured by the system of n bodies, or it, after many more hours of expensive computing time (equivalent to perhaps millions of years of real time), the apparent escape or capture would prove to be false. To the excess computing time has to be added the limited region of space that can be simulated within the computer, and less precise criteria than those derived by Dr. Griffith are already in use by astronomers. Dr. Griffith was elected to membership in the International Astronomical Union.

meetings

Sunday
September 30
Wednesday
October 3

Lakehead Library Technicians Association will meet at 7:30 p.m. in the Library Technology Departmental LAB Room L-5022. All graduates and students are invited to attend - a proposal regarding a non-credit AV course for graduates will be discussed.
Board of Governors Meeting, Senate Chamber, 4:00 p.m.

Russian Visitor

Dr. Mikhail A. Semikhatov, a Senior Research Scientist with the Geological Institute, Academy of Sciences of the USSR visited the Geology Department during July. Dr. Semikhatov is a specialist in Precambrian paleontology and stratigraphy, and was particularly interested in visiting occurrences of Precambrian rocks in the Thunder Bay district which contain abundant evidence of 1.7 billion year old algae growth. These rocks have been extensively documented, and are of world-wide interest. Dr. Semikhatov visited under the auspices of the Exchange of Scientists Agreement between the National Research Council of Canada and the Academy of Sciences of the U.S.S.R. and was accompanied by Dr. J.M. Franklin during the Thunder Bay portion of his tour.
