VOLUME 6

NUMBER 3

JUNE 8, 1973

New Dean Named

Dr. A.D. Booth, President of Lakehead University is pleased to announce the recent appointment of Dr. William T. Melnyk as Dean of the Faculty of Arts. Dr. Melnyk fills the gap made by the untimely passing last summer of the former Dean, Professor Tim Ryan. Dr. Melnyk has been Acting Dean of Arts since that time.

Dr. Melnyk

Dr. William T. Melnyk was born and educated in the Lakehead, graduating from Fort William Collegiate. He achieved his B.A., M.A., Diploma in Clinical Psychology and Ph.D. at Queen's University. He has taught on the University level since 1964, and was Chairman of the Department of Psychology at Lakehead University before taking over as Acting Dean of Arts last year. He has also been employed by various hospitals as a clinical psychologist, and from 1963 to 1966, served as Chief Psychologist at the Kingston General Hospital. Since returning to Thunder Bay, he has acted as consultant in Northwestern Ontario to the following institutions: McKellar General Hospital, Lakehead Psychiatric Hospital, Department of Indian Affairs (Education Department), and the school boards of Kenora, Atikokan and Dryden.

Dr. Melnyk has also written various articles for publication in learned journals and presentation at professional meetings. He is a member of the Canadian Psychological Association, the Ontario Psychological Association, the International Association of Applied Psychologists and the Ontario Council of Academic Psychologists. He has served as Chairman for both the Thunder Bay Addiction Research Foundation and the Advisory Committee to the Mental Retardation Counsellors Programme at Confederation College, in addition to being a member of the Executive Committee of

the local Board of the Association for Children with Learning Disabilities and the Executive Board for the Ontario Council for Academic Psychologists. He has recently accepted an appointment to the Advisory Council on Academic Planning for Ontario.

Melodrama By Moonlight

Looking for a different entertainment experience? A unique opportunity is open to you almost any evening throughout the summer, thanks to the initiative of a group of Thunder Bay young people.

We refer to the acting troupe known as Midnight Melodrama who last year rented an old boarding house on the Port Arthur waterfront, converted it into a Gay Nineties Theatre, and proceeded to perform a series of very highly successful melodramas.

They are back in business again this year, and their repertoire includes the following dastardly titles, to be performed every week on the following days: "Dirty Work at the Crossroads" (Wednesdays), "The Last Loaf" (Thursdays), "Dracula" (Fridays), "Only an Orphan Girl" (Saturdays), "The Secret of the Spyglass" (Sundays). The latter will be ready for production later in the summer and is an original work by Bill Pendergrast, local College Director of Theatre Arts and driving force behind the whole company.

Performances are set for 8:00 p.m. sharp at the Water Street theatre. In order that everyone gets a chance at admission each evening, holders of advanced tickets must be in their seats by 7:45 p.m.

Midnight Melodrama provided excellent entertainment throughout the summer last year without benefit of grants. As a result, they have a considerable financial deficit, and would appreciate your support.

The series got underway this season with "Dirty Work at the Crossroads" on Wednesday, June 6. See you there for upcoming performances.

Library Notice

Commencing June 10, 1973, the University Library will open according to the following schedule:

Monday - Friday	- 8:30 a.m. - 12 midnight
Saturday	- 9:00 a.m. - 5:00 p.m.
Sunday	- 2:00 p.m. - 10:00 p.m.

Summer Language Study

From July 3 to August 18, for the third consecutive summer, the University will offer an immersion programme in French for English-speaking Canadians and one in English for French-speaking students. The character of the course requires that students will be totally engaged in the study of a second language for the six-week term in an atmosphere aimed at creating the best facilities for such endeavours, under the guidance of experienced bilingual instructors and monitors.

Dr. M.A. Colina, director of the programme, has arranged for twelve staff members to handle in excess of 60 students. Academic activities include exposure to grammar through a review of language structure, workbook study and written composition; to textual study through reading, directed conversation and vocabulary; to French-Canadian literature through the study of specific works; to laboratory practice through pattern drill and phonic exercises; and also to conversation sessions which promote free expression of discussions of current events in the new tongue. The French programme, operated on three different levels, can lead to credits for French 1p6, 1b6 and 2b6.

Such activities are designed to keep participants occupied during the 9:00 a.m to 5:00 p.m. workday. But this is only the beginning. Instructors and monitors are expected to engage all the students in conversation in the second language during meal-time and after work hours. In addition, a variety of cultural activities are laid on for evenings and weekends. Besides an excursion to St. Boniface, Manitoba, these include play readings, informal discussions on Canadian problems, tours of Thunder Bay and area, sing-a-long sessions, cine-club, poetry-club, poetry recitals, special lectures by guest speakers, and a group or individual project. Such involvement is mandatory on Monday, Tuesday and Thursday evenings. Social gatherings for those who wish to attend are scheduled for Wednesdays. On Fridays and Saturdays, participants are free to partake of University and community activities.

The Summer Language Training Programme is funded by the Federal Government and administered through the Ministry of Education in Ontario.

Math Representative

Dr. W. Eames of the Department of Mathematics has recently been elected to the Council of the Ontario Association for Mathematics Education.

This organization was formed by the amalgamation of the two existing groups of mathematics teachers in Ontario.

Professor Elected

Dr. L. Zawadowski, professor in the Department of Languages, attended a meeting of the Canadian Semiotic Research Association, held on May 31, 1973, in Kingston, Ontario. Dr. Zawadowski read a paper on the "Conventional relation and transmission of information: the two definitional planes of the sign", which was very well received by an audience of researchers from various parts of Canada.

The Canadian Semiotic Research Association is devoted to research work in all varieties of semiotic systems. It plans to join the recently formed International Semiotic Association.

At the meeting held on May 31, Dr. Zawadowski was elected Vice-President of the Association. Congratulations and best wishes to Dr. Zawadowski for continuing fruitful work in this area!

Finnish Courses

In direct response to local community need, the Department of Languages will institute courses in Finnish language and culture which could form the foundation for a future degree programme. The courses include elementary Finnish for beginners, intermediate Finnish for those with some background in the language, and a course on Finnish culture which will be offered in English. The plan has been approved for the coming academic year by the Senate.

Local interest in the study of Finnish has been nurtured by Mrs. T. Kahara, who has implemented programmes at Hillcrest and Hammarskjöld high schools. At present there are 93 students studying Finnish as a second language in Thunder Bay. Mr. E. Peterson, Chairman of the Finnish School Committee made an official request to Lakehead University to provide continuing development for these students, as well as others in the community. As a result of a recent survey, fifty-four people are already committed to one or more of these courses.

Professor André Cloutier, acting chairman of the Department of Languages, indicates that Lakehead will be the first university in Canada to include Finnish courses of any kind in its programme. Negotiations are currently underway with the Finnish government, who have indicated their willingness to provide a professor for the courses, and also to underwrite part of his salary. Professor Cloutier feels that such cooperation

New Appointment

Dr. Robert Campbell Joyner has been appointed by the McMaster University Board of Governors as Dean of the Faculty of Business for a term of five and a half years. At present a member of the Faculty of Administrative Studies, York University, Dr. Joyner takes up his appointment on January 1 next year.

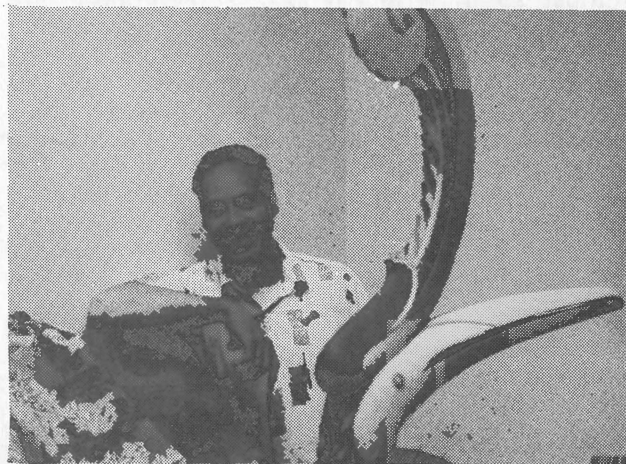

Dr. Joyner succeeds Dr. William J. Schlatter, who completes his five-year appointment as Dean of the Faculty of Business at the end of June. Dr. Schlatter will continue as a member of the Faculty in his additional appointment as Professor of Accounting.

Towards Cooperation

The Centre for International Cooperation has opened in the Lakehead University Mall. It is a non-profit charitable organization, separate from the university, that is filling a void in Thunder Bay. Realizing Thunder Bay's isolation, the Centre hopes that its international work in this city will allow people to expand their minds and participation beyond the confines of Thunder Bay.

Lloyd Jones, its executive director, conceived the idea in August of 1971 when he moved here from Sarawak, Borneo. Having served with the Canadian International Development Agency and the United Church of Canada overseas, Lloyd has had formal training at McMaster University (B.A.) and the University of the Pacific (M.A. Education Counselling). His master's research programme was on the concept of a "World University".

The primary objective of the Centre for International Co-operation is to provide reliable information, advice, and encouragement to anyone interested in international involvement, particularly in education and development

Mr. Lloyd Jones

The Centre has already published a "Handbook for Overseas Students", available free of charge and has arranged short term home stays for several overseas student visitors last summer. It has assisted several overseas students financially and has provided free of charge publicity for Lakehead University at several centres around the world. The Centre hopes to initiate a "Mother Peace News" - an international magazine of informal exchange, a twinning programme between Thunder Bay and Borneo, and will continue to make the resource centre in the mall more comprehensive.

For your interest, similar centres exist in Hamilton, Toronto, Guelph, Antigonish, Saskatoon, Winnipeg and other cities.

Athletics Notes

Howard B. Lockhart, director of the Lakehead University Basketball Camp, announces that the camp will be held in two sessions this year: August 20 - August 25 and August 27 - September 1. The programme, open to all boys and girls entering Grades 13 and under, as well as students entering Lakehead University for the first year, will include instruction in fundamentals, development exercises, rules and team play, as well as a camp tournament on the last day of each session. Mr. Lockhart announces 112 confirmed participants from 24 different cities and towns across Ontario.

Mitch Kawasaki, second year student of Physical and Health Education, has been selected to the Canadian Judo Team to compete in the World Judo Championships in Switzerland at the end of this month.

Larry Zulianello and Dick Trivers, mainstays of the Nor'Westers hockey squad, have been named to the NAIA All-American Hockey Team by the selection committee representing the forty member schools in the National Association of Inter-collegiate Athletics.

From The Ministry

The Ontario Minister of Colleges and Universities, the Honourable Jack McNie, recently announced a seminar on post-secondary learning to be held at Hart House, University of Toronto, June 11-13, 1973. The purpose of the seminar is to consider the development and co-ordination of all forms of post-secondary learning that aim to meet individual needs in Ontario during the next decade. It will draw up to 400 delegates with a variety

of backgrounds from across the province.

A \$250,000 experimental programme, entitled Festival Ontario, has been announced recently by the Honourable Jack McNie. Its aim is to provide local arts festivals with backup resources in the form of displays, demonstration and administrative expertise through agencies such as the Ontario Science Centre, the Royal Ontario Museum, the Art Gallery of Ontario, the Ontario Arts Council, the Provincial Archives and the Ontario Educational Communications Authority.

Provincial support to local museums has been increased to \$240,000, double last year's figure. The big increase complies with recommendations in the Report of the Commission on Post-Secondary Education in Ontario. Local museums are expected to play an increasingly important role in the cultural and educational life of Ontarians.

Grants to six cultural agencies total \$12,366,000, up substantially over the previous year. Agencies include the Ontario Arts Council, the Royal Ontario Museum, the Ontario Heritage Foundation, the McMichael Canadian Collection, the Art Gallery of Ontario and the Royal Botanical Gardens in Hamilton.

Papers Read

Dr. George K. Fleming, Chairman of the School of Engineering, presented two papers recently, namely: "Application of a Small Digital Computer to the Mechanical Pulping Process" with D.K. Alexander, The Great Lakes Paper Company, read to the Second International Symposium on Pulp and Paper Process Control, Montreal, and "Isolating Vibrations in a DS-32 Disc" read to the Digital Equipment Computer Users Society Spring Meeting, Philadelphia.

between Finland and Thunder Bay has a good chance of developing because the local Finnish population of roughly 10,000 is the largest concentration outside the mother country.

BA/BSW Programme

Dr. William T. Melnyk, Dean of Arts at Lakehead University announced recently that Deputy Minister of Colleges and Universities Dr. Gordon Parr, recently communicated that the Committee on University Affairs had approved the University's proposal for a Bachelor of Social Work degree programme.

This approval is the culmination of plans, research and discussion initiated by the faculty and administration of Lakehead University as far back as 1967. The main argument in favour of such a programme lies in the fact that there are a great number of social workers in Northwestern Ontario who do not hold degrees in social work. It is the primary aim of this particular programme to provide badly needed upgrading for such people.

The programme will begin by accepting students already working as social workers in Northwestern Ontario. Courses will be offered in the evening, and during the summer and intersessional terms for part-time students. In addition, the programme will admit a small number of full-time students who display promise of being employed as social workers in Northwestern Ontario.

Basically, four categories of people will be eligible for admission. The first category will be students enrolling in the first year of the four year degree programme and completing all the requirements for the BA/BSW. Secondly, those who have already completed B.A. studies may enroll to complete the additional courses necessary to reach the Bachelor of Social Work level. A third category will include students transferring from studies in other disciplines. It is anticipated that graduates of the Social Services diploma at Confederation College will be awarded credits toward the BA/BSW degree, according to the accomplishments of the applicants. The final category includes people already employed as social workers and who wish to upgrade their qualifications. Recent surveys have shown that demand among the latter for a programme of this type is very great.

Admission to the programme will be decided on the basis of each applicant's qualifications. This will be accomplished through an admissions screening committee composed of the Programme Director, Dean of Arts, Registrar of the University

and two senior social workers from the community who may or may not be involved in teaching or advising in the programme. Existing requirements for adult admission and admission into the Faculty of Arts at Lakehead University will apply. Full credit will be given for professional and related experience.

For further information or application forms, please write or phone the Registrar, Lakehead University, 345-2121, Extension 269. Applicants will be accepted on a first-come, first-served basis for the first course, scheduled to begin this fall.

Special Awards

On Saturday, May 26, the following graduates and students were honoured for their achievement and contributions to the University.

The Poulin Award, for outstanding citizenship presented to the student selected by his fellows, the Faculty and Administration as contributing most to the welfare of the University through his student activities was presented to Doug Robson by the President, Dr. A.D. Booth. He also presented *Presidents Awards* to Tony Pucci, David Frood, Linda Pettit, Dick Henderson, Ernie Kreutz, John Cary for having occupied positions of responsibility in the students' organizations and who by their activities and achievements have earned the gratitude of the University.

Science Medals, presented by Dr. J. Warren, Acting Dean of Science, went to Janice E. Kuster for the three-year programme and to George W. Einarson in the Honours programme.

Arts Medals, presented by Dr. W. T. Melnyk, Dean of Arts, went to Patricia D.P. Poluha, BA, Three-Year Programme, and Eugene Edward Murphy, BA (Hons.), Four-Year Programme.

The Chancellor's Medal, presented to the highest ranking graduating student (part-time student) in the graduating class of the Bachelors' or Honours Bachelors' degree went to John Frank Bancej, and was presented by the Chancellor, the Honourable Justice Bora Laskin.

The Lieutenant-Governor's Medal, awarded for the highest ranking graduating student in the graduating class of the Honours degree, was presented by Dr. Booth to Man-Yuen Wong.

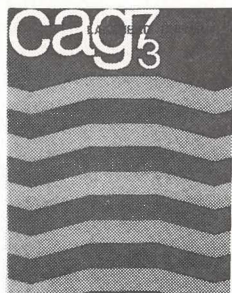

Other academic prizes and awards and their recipients include: Canadian Studies Scholarship, D.A. Precosky; Prizes of the Ambassador of Switzerland, Margaret Strerz, John F. Bancej, and L. Dale Black; Prix du Consul General de France, Patricia Poluha; Prix de l'Attache Cultural de France, Marian Lanchok; Canadian Association of Geographers' Prize, Eugene E. Murphy; Geography Department Prizes, Ann MacDonald, Ken-

weekly events

neth MacKenzie, Margaret Lucas and Barbara Tamminen; Philosophy Department Prizes, Marilyn Aldrich and Martin Hellsten; and the Jessie Mackey Memorial Award, Dianna Batholomew and Lois Pronger.

Grant To Review

John Griffith and Russell Brown, the editors of the *Lakehead University Review* are pleased to announce that the journal has recently been awarded a Canada Council Grant of \$1,500 for partial support during the next year. The Council assessors were generally favourable in their reactions to the Review, professing themselves impressed by its scope and general competence and remarking its attractive and professionally done presentation. The award will be of particular help to the journal during its present period of growth and expansion.

Subscriptions to the *Lakehead University Review* are available at \$3.50 for one year (two issues). This fall the Review will present a special issue on "Canada into the Seventies", with articles about present and future trends in foreign policy, literature, and economics, reviews of recent books, and poetry by such well-known Canadian authors as Dorothy Livesay and Robert Kroetsch.

In-House Operation

Editor's Note: Mr. Ted Broughton, Director of Physical Services recently requested that the following note be included:

Over the past several days, a good number of Faculty members and people in the Administration have inquired as to how the gym floor in the C.J. Sanders Building is brought up and made to look so beautiful. It is a pleasure to have everyone advised through your media that the floor is roughed, finished and stained by members of the Housekeeping group of the Physical Services Department of whom we are very proud.

The Gym generally is closed for a week because there is great detail in the necessary scrubbing, rinsing, the use of steel wool and the proper application of a gym finish. This has to be done twice to get the proper build-up and hardness for the use this floor gets during the year's activities.

meetings

Reclassification

The Association of Professional Engineers of the Province of Ontario has recently extended its classifications of Professional Engineers by instituting the designation of specialists in a number of fields. Dr. George Fleming has been granted specialist's designation by the Council of the Association. In addition the Association has set-up a thirty member Board of Specialization. He has also been appointed to this Board. The Board's function is to establish criteria which must be met to earn specialist designation and to implement procedures for admitting applicants to this category.

Rescheduled

The Thunder Bay Chamber Orchestra concert scheduled for June 20 in the evening is now to be held at 3:00 p.m. on June 10 in the Faculty of Education Auditorium. It will be a combined effort of the Thunder Bay Symphony and the Youth Symphony. Individuals from the orchestra will appear as soloists.

Also, commencing at 8:30 p.m. on June 10, in the Faculty of Education Auditorium, there will be a recital by Peter Samuelson, French hornist, assisted by Gregory Schulte, pianist.
