Lakehead University

Convocation 1995

Saturday, May 27, 1995 marks Lakehead University's thirty first annual convocation for the conferring of degrees and diplomas. The word "convocation" means "calling together". It is a ceremonial meeting of the entire university community. On Convocation Day university members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia", had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown and in some cases the special hat (mortarboard) worn by an individual is determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom and several other nations of the world are worn here today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the university - the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors - are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the university's academic requirements (three, four or five years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two

inch colour border which indicates the degree acquired eg. white for Arts, drab for Commerce, blue for Education, burgundy for Nursing etc.

In addition to "earned" degrees, the university confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the university. An honorary degree may be awarded in recognition of scholarly or creative attainments or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "in the cause of honour". A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. Four honorary degrees, the Doctor of Letters, the Doctor of Laws, the Doctor of Engineering and the Doctor of Science will be conferred in today's ceremonies.

The Board of Governors of the university also recognizes individuals who have contributed to the growth, development, welfare and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize university Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recession the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the university's authority. This mace was given to the university by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

Today the university community celebrates its thirty first annual convocation. Its members dress in clothes which are symbolic, not functional, and go through a centuries old ritual for the conferrment of degrees and diplomas. We thank you for being present to share this special event with us.

Those wishing to take pictures of the graduates are most welcome to come forward to the left and right of the stage. To avoid congestion of that area, please wait until your particular graduate is ready to receive his or her degree before you come forward.

HONORARY DEGREE RECIPIENT

TIMOTHY FINDLEY

Writer

Timothy Findley's name is immediately associated with a prolific writing career. Few may know of his early days in the theatre. Born and raised in Toronto, he studied acting at the Royal Conservatory of Music, then at the Central School of Speech and Drama in London, England. He was a charter member of the Stratford Shakespearean Festival in 1953 and his later performances took him to London, Berlin, Moscow and Broadway.

In 1963 following a succession of theatre, radio and television roles in Canada, Findley turned to fulltime writing. He first came to prominence with his third novel, The Wars, winner of the Governor-General's Award in 1977 and now a Canadian classic. Findley's literary legacy consists of a long list of novels, short fiction, plays and television series including The Nation Dream which he co-authored. Many of his novels and short fiction were dramatized for radio.

Findley's work has been received with great acclaim earning in excess of twenty awards. In 1989 he was recognized with the Ontario Trillium Award for Stones, his most recent collection of short fiction. He received the Canadian Author's Association Award in 1991 for Inside Memory: Pages from a Writer's Workbook, his first book of non-fiction, and in 1985 for Not Wanted on the Voyage. In 1994, Findley received the Toronto Arts Award in Writing and Publishing for his body of work.

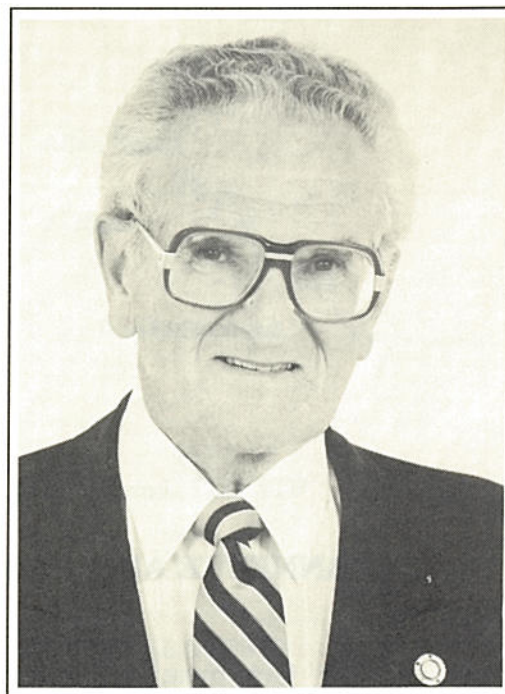

Timothy Findley has been recognized with honorary degrees from several universities and has held the position of writer-in-residence at the University of Toronto, Trent University and the University of Winnipeg.

Timothy Findley currently resides on a farm near Cannington, Ontario. His writings have been translated into fifteen languages.

ADK

MR. SAUL LASKIN

Thunder Bay's First Mayor

Born in Fort William, Ontario, in 1918, Mr. Saul Laskin received his secondary education at Fort William Collegiate Institute and later at Harbord Collegiate Institute in Toronto. He subsequently earned a Diploma in Business Administration from the University of Washington.

During World War II, Mr. Laskin served overseas with the North Nova Scotia Highlanders, 3rd Division as Lieutenant and Acting Captain.

Mr. Laskin was active in the Thunder Bay community for many years. He was president of Laskin's Furniture and held several positions in community organizations including presidency of Shaarey Shomayim Synagogue, the Port Arthur Red Cross, the Ontario Mayors and Reeves, B'nai Brith Lodge, the V.I.P. Independent Purchasers, and the Port Arthur Rotary Club. He also served as Chair of the Advisory Board of the Unemployment Commission of Canada, and as community member of the National Parole Board.

Saul Laskin was Mayor of Port Arthur from 1962-1969 following a term as city Alderman and he was elected the first Mayor of the newly amalgamated City of Thunder Bay in 1970. He was Chair of the Lakehead University Board of Governors and served a total of fifteen years on the Board. He received the title of Fellow of the University in 1987.

Mr. Laskin and his wife Adele currently reside in Toronto.

FELLOW OF THE J

ANNETTE AUGUSTINE

Community Leader

Annette Augustine has helped to change the face of Thunder Bay and of Lakehead University through her ongoing commitment to cultural development.

Annette's contribution to the community spans over thirty years ranging from membership in charitable organizations such as The Salvation Army and the Westmount Chronic and Convalescent Hospital Auxiliary to historical and cultural organizations such as the "Old Fort William" Citizen's Advisory Council, the Thunder Bay Historical Museum Society and the Thunder Bay National Exhibition Centre and Centre for Indian Art (now called the Thunder Bay Art Gallery). As a graduate of the Ontario College of Art, Mrs. Augustine's passion for art combined with her fundraising abilities played a major role in helping to build The Thunder Bay Art Gallery. In recent years she also sat on the Board of the Art Gallery of Ontario which provided an opportunity for her to share our northern cultural needs with those in Southern Ontario.

Lakehead University has equally enjoyed the benefits of Mrs. Augustine's commitment to cultural enrichment. She sat on the Board of Governors from 1989-1993, specifically the Investments, Nominating and Executive Committees. She continues to Co-Chair the Lakehead University Music and Visual Arts Centre Campaign which, as a result of her efforts, has nearly reached its fundraising objective.

She was presented with the Citizen of Exceptional Achievement Award by the City of Thunder Bay and the Volunteer Service Award by the Ontario Ministry of Citizenship and Culture.

Mrs. Augustine and her husband Dr. John Augustine have travelled extensively and have served as exceptional ambassadors for the City of Thunder Bay and Lakehead University.

of Degrees and Diplomas**

**THIRTY FIRST ANNUAL CONVOCATION
FOR THE CONFERRING OF DEGREES AND DIPLOMAS**

MONIQUE (AUBRY) FRIZE

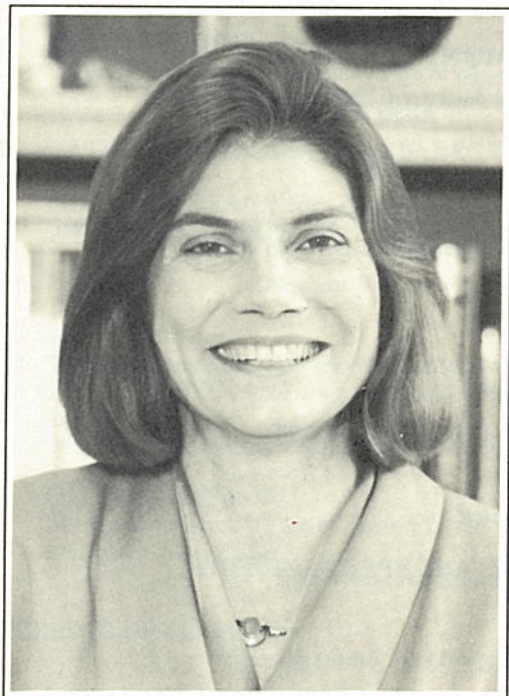

Scientist and Engineer

Monique Frize was born in Montreal, Quebec. Her educational backdrop marks the beginning of a series of groundbreaking achievements for women in Science. As the first woman to study engineering at an Ottawa university, she received a Bachelor of Applied Science in 1966 from the University of Ottawa. One of the first women to receive an Athlone Fellowship, Dr. Frize continued her studies at the Imperial College in London, obtaining a Masters in Philosophy in Engineering (Engineering in Medicine) in 1970. She completed a Masters Degree in Business Administration from the Université de Moncton in 1986 and in 1989, a Doctorate from Erasmus Universiteit in Rotterdam, The Netherlands.

Dr. Frize's professional appointments and activities establish her as an icon for women aspiring to careers in engineering. In 1979, she was appointed Director of the Regional Clinical Engineering Service in Moncton, providing services for seven hospitals in the South-Eastern regions of the province. Concurrently, she acted as a Research Associate in the Faculty of Science and Engineering at the Université de Moncton. Her appointment in December 1989, as Chair of the Northern Telecom-NSERC Women in Engineering at the University of New Brunswick, is the first of its kind in Canada. As a role model for female engineering students and engineers, she develops programs to recruit and retain women in the profession. In addition to teaching in the Department of Electrical Engineering at the University of New Brunswick, she is a research faculty member of the Biomedical Engineering Institute.

Monique Frize has contributed nearly twenty years of clinical experience to professional bodies dedicated to the development of the profession including the National Advisory Board on Science and Technology, the International Federation of Medical and Biological Engineering and the Canadian Academy of Engineering. Dr. Frize chaired the Canadian Committee for Women in Engineering and presently chairs an NSERC Task Force focusing on ways to increase women's participation in scholarship and university teaching in the fields of science and engineering.

Dr. Frize is the recipient of honorary degrees from the University of Ottawa and York University and was made a Fellow of Ryerson Polytechnical Institute. In October 1993, she was inducted as Officer into the Order of Canada. She maintains an active schedule delivering speeches, writing articles and consulting, both at home and abroad.

HELEN DONIS-KELLER

Scientist

Helen Donis-Keller graduated from Lakehead University in 1973 with a Bachelor of Science degree in Natural Science and in 1975 with an Honours Bachelor of Science degree in Biology. She was the recipient of the Lieutenant-Governor's Medal as the highest ranking graduating student in the three year Bachelor's program and the Dean of Science Medal as the highest ranking graduating student in the Honours Bachelor of Science degree program. This was just the beginning of her scholarly achievements in science which have focused on research instrumental in isolating the genetic determinants of inherited diseases and in developing predictive tests for these disorders.

She received a Doctorate in Biochemistry and Molecular Biology from Harvard University in 1979 and completed post-doctoral studies in virology at the Harvard Medical School. Dr. Donis-Keller's early research appointments from 1983 to 1989 gave rise to significant developments in medical research. Projects which she led included mapping the gene for cystic fibrosis in 1985, and developing the first genetic linkage map of the human genome, published in 1987.

In 1989, Dr. Donis-Keller moved to St. Louis, Missouri where she became Professor of Genetics and Professor of Genetics in Psychiatry at Washington University. In 1992, she was appointed Professor of Surgery and Genetics and Director of the Division of Human Molecular Genetics in the Department of Surgery at Washington University. In addition to conducting genetic research, Dr. Donis-Keller continues to play a vital role in policy development regarding the ethical use of genetic information. She also teaches a course on the subject of ethics and research science. Combined with research and teaching, Dr. Donis-Keller has authored and co-authored numerous articles and books.
