Lakehead University Convocation 2010

Lakehead University's forty-sixth convocation for the conferring of degrees and diplomas is being celebrated on Friday, May 28, 2010, and Saturday, May 29, 2010, at our Thunder Bay campus and Saturday, June 5, 2010, at our Orillia campus.

The word "convocation" means "calling together." It is a ceremonial meeting of the entire University community. On Convocation Day, University members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia," had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters, and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings, and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown, and in some cases the special hat worn by an individual are determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom, and several other nations of the world are worn at Lakehead University today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the University – the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors – are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the University's academic requirements (three, four, five, six or seven years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two inch colour

border which indicates the degree acquired, e.g. white for Arts, blue for Education, green for Forestry, burgundy for Nursing, etc. Lakehead's first PhD degree was conferred in 1998.

In addition to "earned" degrees, the University confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the University. An honorary degree may be awarded in recognition of scholarly or creative achievements or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "for the sake of honour." A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. The Doctor of Science, Doctor of Laws, and Doctor of Letters will be conferred this year.

The Board of Governors of the University also recognizes individuals who have contributed to the growth, development, welfare, and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize University Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recessional the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the University's authority. This mace was given to the University by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

As Lakehead University celebrates its forty-sixth convocation with students, parents, friends, and community, it is worthwhile to remember that convocation participants dress in clothes which are symbolic, not functional. They go through a centuries-old ritual for the conferment of degrees and diplomas – a milestone in the lives of our graduates. We thank you for being present to share this special event with us.

Photographs – Those wishing to take pictures of the graduates are most welcome to come forward to the left and right of the stage. To avoid congestion of the areas, please wait until your particular graduate is ready to cross the stage before you come forward.

FORTY-SIXTH ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Arthur V. Mauro

CHANCELLOR

On January 1, 2010, Mr. Arthur V. Mauro, prominent Canadian businessman and philanthropist, began his term as Lakehead University's seventh Chancellor. Mr. Mauro says that he has a tremendous sense of gratitude to have been asked to take on this role in the city where he was born and raised. "It is one of my regrets that Lakehead University did not exist when I finished secondary school. I would have attended."

Arthur Mauro was born in Thunder Bay, Ontario. He went to Winnipeg in 1946 to study at St. Paul's College, a Catholic College in the Jesuit tradition. He then studied law at the University of Manitoba and was called to the Bar of Manitoba in 1953. Until 1969 he practiced law, specializing in transportation and communication law.

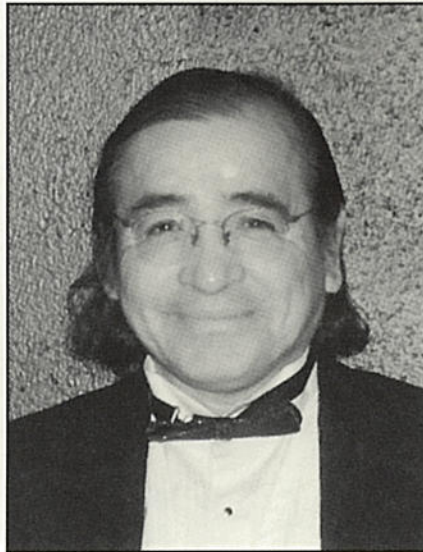

Mr. Mauro has had an impressive business career. In 1967, he was appointed Chairman of the Royal Commission on Northern Transportation, and in 1969 became a senior executive with Great Northern Capital Corporation. From 1972 to 1976, he was President and Chief Executive Officer of Transair Limited, and joined the Investors Group in 1976 to become its President, Chief Executive Officer, and Chairman.

In 1987, he was made a Member of the Order of Canada and was later promoted to Officer in 1992. He received an Honorary Doctor of Laws from the University of Manitoba in 1987 and an Honorary Doctor of Commerce from Lakehead University in 1997. In 2004, he was awarded the Order of Manitoba for his contributions to the economic, civic and cultural life of Manitoba. At present, Mr. Mauro is Chair of the Board of Directors of the Winnipeg Airports Authority Inc.

Since his student days, Arthur Mauro has actively supported the University of Manitoba, as a lecturer and then as Chancellor from 1991 to 2000. In September 2001, he made a major contribution to St. Paul's College at the University of Manitoba to establish the Arthur V. Mauro Centre for Peace and Justice, dedicated to the advancement of human rights, conflict resolution, global citizenship, peace, and social justice through research, education, and outreach.

Although Mr. Mauro has long since left the Lakehead, he has never forgotten his roots. He has fond memories of growing up on Secord Street in Port Arthur, being a student at Port Arthur Collegiate Institute, and graduating from St. Patrick's High School. His commitment to Thunder Bay and to Lakehead University was demonstrated in 2005, when he matched donations made to the Advanced Technology & Academic Centre (ATAC) capital campaign by members of the local Italian community.

The Chancellor's primary responsibilities include fostering the mission, vision, and values of Lakehead University and building bridges between the University and its stakeholders as well as the broader public locally, nationally, and internationally. "I am pleased to serve as Lakehead's Chancellor and look forward to contributing to its institutional success over the next three years," says Arthur Mauro. "As a longstanding member of the Thunder Bay community, I am proud not only to support Lakehead in this capacity but also to represent its character and the excellence it embodies."

Tomson Highway

DOCTOR OF LETTERS, honoris causa

Mr. Tomson Highway's use of his remarkable imagination, musical talent, and writing skills to render unflinching explorations of life from an Aboriginal perspective has made him one of Canada's foremost artists. Born in a tent pitched in a snow bank just south of the Manitoba/Nunavut border (near Saskatchewan), Tomson Highway and his family lived on the land, hunting and fishing. He has said that "The first seven years of my life were magic. I had the trapline, the dog sleds, and the caribou."

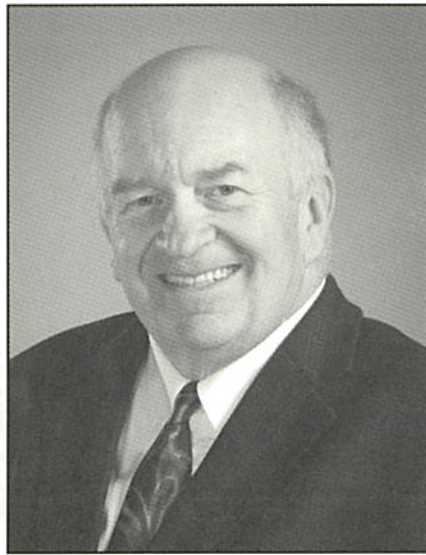

After attending Catholic residential school in The Pas, Manitoba, Mr. Highway studied piano at The University of Manitoba before transferring to the University of Western Ontario where he earned his Honours Bachelor of Music in 1975 and the equivalent of a Bachelor of Arts in 1976. He also spent a year in between in London, England, studying with a concert pianist. Upon graduating, Tomson Highway worked with Native social and cultural organizations and then turned to theatre where he took on the roles of artistic director, playwright, and musical director.

From 1986 to 1992, Mr. Highway was Artistic Director of Native Earth Performing Arts, Canada's premiere Native theatre company, out of which has emerged an entire generation of professional Native theatre artists. In 1986, his play *The Rez Sisters* became a huge hit. It dramatized the hopes and struggles of seven female protagonists on a fictional Native reserve and was followed by a similarly successful companion piece, *Dry Lips Oughta Move to Kapuskasing*, revolving around seven male characters from the same reserve. Both plays feature Nanabush, the Native trickster god, and provocative juxtapositions of humour and violence. *Rose*, the third play in the trilogy, featured a large ensemble cast which led to production difficulties. This impasse prompted Tomson Highway to write his first novel, *Kiss of the Fur Queen*, published in 1998.

Throughout his career Tomson Highway has travelled the world giving readings, lectures, and performances. Fluent in Cree, French, and English, he holds the post of Adjunct Professor at University of Toronto's University College, and has been awarded seven honorary doctorates from Canadian universities. As well, he has received equivalent honours from The Royal Conservatory of Music in Toronto and the National Theatre School in Montreal.

Tomson Highway has written three children's books published by HarperCollins Canada, an academic work *Comparing Mythologies*, and has acted as Writer-in-Residence at several universities. He returned to playwriting in 2004 with *Ernestine Shuswap Gets Her Trout*, and then wrote the libretto for *Pimootewin: The Journey*, a dazzling new opera written in Cree, which premiered with the Elmer Iseler Singers in 2008 and toured Northern Ontario in the spring of 2010.

Tomson Highway's contributions to Canadian theatre and cultural life have been recognized with his induction into the Order of Canada and a National Aboriginal Achievement Award, as well as many other honours. His work both illuminates the collisions between Native and non-Native cultures in Canadian society and offers compelling portraits of joy and sorrow that give us a greater understanding of the human condition.

Larry Hebert

ALUMNI HONOUR AWARD

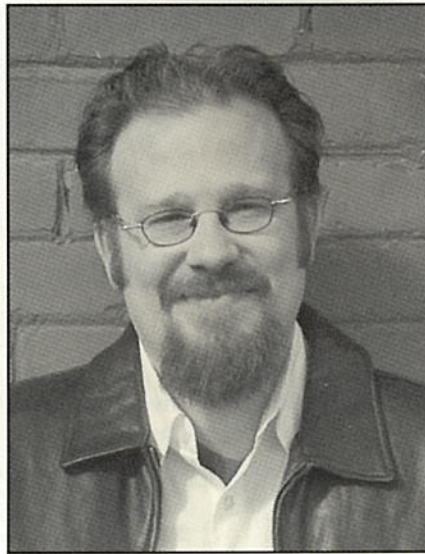

Mr. Larry Hebert's energy and strong public service ethic have made him one of Thunder Bay's stellar citizens. His childhood growing up in the 1950s and 1960s on the corner of Franklin and Walsh Streets fostered his commitment to the community. Larry Hebert recalls the wonder of seeing a day-old colt in a barn on Brown Street and engaging in his passion for sports by playing road hockey and line baseball. He also jokingly says that his "claim to fame is helping Paul Shaffer cross the street" when he was a school patrol member.

Larry Hebert received a Bachelor of Arts from Lakehead University in 1969. He thoroughly enjoyed his time at the young University, appreciating its vitality and the opportunity to attend school in his hometown. While at Lakehead, he played basketball and was the sports editor for Lakehead's Argus newspaper in 1969. Mr. Hebert earned his Graduate Diploma in Business from Lakehead in 1970. He then attained an MBA from the University of Toronto in 1972 before returning to Thunder Bay where his interest in general management drew him to the human resources sector.

Larry Hebert's first job was as a Human Resources Assistant with St. Joseph's Hospital in Thunder Bay. In 1975, he became the Human Resources Officer at Thunder Bay Hydro, marking the start of a long career with this major regional public utility. In 1978, Mr. Hebert completed an Honours Bachelor of Commerce degree from Lakehead. His career continued to flourish and he became the General Manager of Thunder Bay Hydro in 1983, a job he remained in until his retirement in 2004.

Throughout this period, Larry Hebert took on many volunteer roles ranging from coaching Little League baseball and Pee wee hockey to working with The Salvation Army and the Shriners. He has remained closely involved with Lakehead, helping with many fundraising initiatives. Lakehead recognized his service by making him a Fellow in 2002 and naming him one of Lakehead's Northern Lights in 2006. This was also the year Larry Hebert received the Robert H. Hay Award of Exceptional Merit from the Ontario Municipal Electric Association for his contribution to the electricity distribution industry.

Continuing his work as an advocate for Thunder Bay, Larry Hebert is now a City Councillor and active on many boards, such as the Thunder Bay Public Library. He is President of the Thunder Bay International Baseball Association and the owner of Genotran Consulting. Mr. Hebert also has a special project he would like to see come to fruition – the creation of a Northwestern Ontario version of the Tour de France that would be the largest bicycle race in North America. An optimist at heart, Larry Hebert believes that "People should have fun with their jobs and fun with life. We live in one of the best places in the world."

Michel S. Beaulieu

YOUNG ALUMNI AWARD

Dr. Michel Beaulieu's academic and community work is enriching the social and cultural fabric of Northwestern Ontario, and challenging assumptions about the significance of the north in Canadian history. Dr. Beaulieu has said that he chooses to live in Thunder Bay because of his "strong belief in the potential of the north, a belief in its past and future."

Dr. Beaulieu, who was born and raised in Brampton, Ontario, has always been very civically engaged. As a student, he coached football, baseball, and roller hockey, and volunteered with the Region of Peel Museum and the Peel Heritage Complex. But Michel Beaulieu's interest in northern studies and a family history rooted in Northern Ontario and Quebec made Lakehead his university of choice for postsecondary studies. In 2001, he received both an Honours BA in History and English and a Bachelor of Education from Lakehead before earning an MA in History focusing on early Northwestern Ontario films in 2003. This was followed by a PhD specializing in Northern Ontario labour history from Queen's University in 2008.

After graduation, Michel Beaulieu was hired as Assistant Professor of Northern Ontario History at Lakehead University and he will become an Associate Professor this July. He is also an Adjunct Professor of Philosophy, Co-Director of the Centre for Northern Studies, and Co-Director of the Lakehead Social History Institute. Michel Beaulieu combines this with teaching for the University of the Arctic.

A self-described community-based historian, Dr. Michel Beaulieu believes that "the result of the research that historians perform should be accessible to everyone, especially those whose story I am trying to tell." As a result, he participates in a multitude of community organizations. He is the Chair of the Bay Street International Film Festival and sits on several boards including the Thunder Bay Historical Museum Society, the Canadian International Council, and the Northwestern Ontario Archivists Association.

A prolific writer and researcher, Dr. Michel Beaulieu has two forthcoming books, *North of Superior* and *Socialism and the Politics of Labour at the Canadian Lakehead*. He is also writing a history of the Industrial Workers of the World. Dr. Beaulieu has edited several books including *Essays in Northwestern Ontario Working-Class History* and *Final Fantasy and Philosophy: The Ultimate Walkthrough*. In addition, he has many book chapters and journal articles to his credit.

Michel Beaulieu's work appears in both academic and popular publications as part of his commitment to making history accessible and, among other honours, he has received the 2009 J.P. Bertrand Award for best scholarly article on the history of Northwestern Ontario. Dr. Michel Beaulieu's passionate involvement in the discourse of history from a northern perspective sheds light on the political and economic questions that Canada faces today.

for the Granting of

Graduate and Undergraduate Degrees and Diplomas in
the Faculty of Education

FORTY-SIXTH ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Tony Belcourt

DOCTOR OF LAWS, honoris causa

Mr. Tony Belcourt's unwavering determination has led to landmark changes in the status accorded to Canada's Métis People and has made his name synonymous with Métis rights. This activist and visionary from Lac Ste. Anne, Alberta, has said that "The work I'm carrying on is really the dreams of my parents, my aunts and uncles, and my ancestors before them."

Until recently, the federal and provincial governments did not acknowledge the Métis as a distinct Aboriginal people with their own unique history and culture. This lack of recognition for Canada's "forgotten people" excluded them from the land claims process and denied them hunting and fishing rights.

Asserting the political and cultural voice of the Métis has been Tony Belcourt's mission, and he has drawn upon his impressive communications and negotiating abilities in a vast array of roles to achieve this end. Mr. Belcourt was elected Vice-President of the Métis Association of Alberta in 1969. He was a key figure in the formation of the Native Council of Canada and became the organization's founding President in 1971.

Tony Belcourt expanded his presence in the federal arena as the Communications Director of the Northern Program Department of Indian and Northern Affairs from 1977 to 1981. He also played a historic part in enshrining the rights of Canada's Métis and other Aboriginal peoples in the Constitution Act of 1982 through his participation in the fierce lobbying to have Section 35, the Aboriginal rights clause, reinstated after it had been dropped. In the latter part of the 1980s and the early 1990s, Mr. Belcourt was involved in the private sector as the organizer of a Native Business Summit and as the head of Wolfwalker Communications, an Aboriginal-focused multimedia production company. He also served as a key advisor to the Métis National Council President during this period.

In 1993, Tony Belcourt founded the Métis Nation of Ontario (MNO) and held the position of President until he stepped down in 2008. This organization has been a crusader in the push for Métis self-government, economic development, and educational opportunities as well as a promoter of Métis culture. While at the MNO, Tony Belcourt was pivotal in spearheading the recognition of Métis hunting rights through his involvement in the Powley case which went before the Supreme Court of Canada in 2003.

Mr. Belcourt is increasingly active on the international stage. He has represented the Métis Nation at the United Nations and the Organization of American States, and made presentations to the World Bank, the International Telecommunications Union, and the World Conference Against Racism. Since 2005, he has been the President of the Indigenous Commission for Communications Technologies in the Americas and in 2008 he was appointed the Métis National Council's Ambassador for International Issues.

Tony Belcourt's legacy as the architect of Métis rights was honoured in 2006 when he received a National Aboriginal Achievement Award for public service. The gains made in the political, economic, and cultural spheres by the Métis people would not have been possible without the dedication of this highly skilled corporate leader, innovator, entrepreneur, and communications specialist.

Lyn McLeod

FELLOW

Mrs. Lyn McLeod says the reality of becoming the first woman elected as leader of the Ontario Liberal Party didn't sink in right away. "My main thought was, 'My life is going to change completely.' And it did."

Lyn McLeod was born and raised in Winnipeg. While pursuing her undergraduate degree in English and French literature at the University of Manitoba, she met a young medical student from Fort William by the name of Neil McLeod. The couple decided to make Thunder Bay their home and, in 1968, Lyn McLeod became a trustee of the Fort William Board of Education, which later became the Lakehead Board of Education, where she served for 17 years, including seven years as Chair. In recognition of her contribution to education, the Ontario Secondary School Teachers' Federation presented her with the Lamp of Learning Award in 1979.

Mrs. McLeod completed an Honours degree in Psychology from Lakehead University in 1984 and was awarded the Dean's medal as the highest ranking student in her program. Following graduation, she worked with troubled children and teens at McKellar Hospital, and though she enjoyed her work, she was being increasingly encouraged to run for provincial office.

In 1986, Lyn McLeod earned a Master's degree in Psychology and was appointed to serve on the Lakehead University Board of Governors as a Lieutenant Governor in Council representative – a position she resigned the following year when she was elected to the Ontario Legislature as the member for Fort William (later to become the Riding of Thunder Bay-Atikokan).

She recalls the unique experience of attending Convocation one year as a graduating student, the next as a member of the Board of Governors, and the next as Minister of Colleges and Universities! She later held the portfolios of Minister of Natural Resources, and Minister of Energy, serving in the Peterson cabinet until 1990.

Aside from the expected pressures that came with a political career, Lyn McLeod says becoming the Liberal Party leader in 1992 presented its own challenges. "There were some major issues, a record deficit in Ontario, and some people were asking, 'Is a woman tough enough?'" She certainly proved her toughness, leading the Ontario Liberal Party from 1992 to 1996. She later served as her Party's critic for Education and then for Health.

Lyn McLeod's outstanding achievements, both locally and provincially, were recognized in 1993, when Lakehead presented her with the Alumni Honour Award. Today she is active in several councils and boards and is on the Board of Directors of the Thunder Bay Regional Research Institute of which Lakehead University is a key partner. Her husband is on the Board of Directors of the Northern Ontario School of Medicine.

After 33 years serving in elected political office, Lyn McLeod says her proudest achievements include becoming the first female, and the first person in Northwestern Ontario, to be elected to the leadership of a political party in Ontario, and the sixteen years she spent bringing an awareness of Thunder Bay and Northwestern Ontario to the decision making at Queen's Park.

FORTY-SIXTH ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Temple Grandin

DOCTOR OF SCIENCE, honoris causa

Dr. Temple Grandin's breakthroughs in the design of humane equipment for livestock-handling facilities and slaughter plants have changed the face of the meat industry. Her innovations spring from her ability to understand the emotions of cattle and their sensory-based experience of the world where images, sounds, and smells are paramount.

As an autistic person who thinks visually rather than verbally and who has a highly sensitive nervous system, Temple Grandin came to realize that she and cattle have much in common.

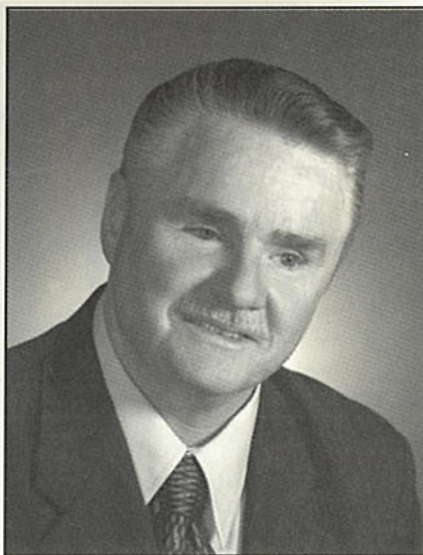

When Dr. Grandin was born in Boston, Massachusetts, little was known about autism. She was initially diagnosed as brain-damaged and institutionalization was recommended. Instead, her mother sought out intensive educational therapy that enabled Temple Grandin to speak by the age of four.

She attended a regular elementary school and a high school for gifted children. This was followed by a BA in Psychology from Franklin Pierce College in 1970. A pivotal summer spent at her aunt's cattle ranch in Arizona later prompted Dr. Grandin to pursue an MS in Animal Science at Arizona State University, which she completed in 1975. Around the same time she worked as Livestock Editor at the Arizona Farmer Ranchman magazine and started an equipment design consulting business. Dr. Grandin's visual thinking was integral to creating equipment as varied as curved chutes, dip vats, and conveyor systems that allowed the calm movement of livestock. In 1989, she was awarded a PhD in Animal Science from the University of Illinois and now is a Professor of Animal Sciences at Colorado State University.

Dr. Temple Grandin's pioneering designs have improved animal welfare and reduced injuries and losses at livestock facilities in North America, Europe, Australia, and New Zealand. She has also developed humane animal handling guidelines for the American Meat Institute.

In the 1980s Dr. Grandin became involved in autism advocacy. Her autobiographical books *Thinking in Pictures* and *Emergence: Labeled Autistic* radically changed the way autism was understood and opened new possibilities for autistics. A prolific writer and researcher in the fields of animal science and autism, she has over 400 periodical and magazine articles to her credit as well as bestselling books such as *Animals Make us Human* and *Animals in Translation*. Her work has been recognized through numerous livestock industry and humanitarian awards, and she has been interviewed by major media outlets including the New York Times, People magazine and Time magazine, which listed her among the 100 Most Influential People in 2010. Dr. Temple Grandin is also the subject of the BBC documentary *The Woman Who Thinks Like a Cow* and *Temple Grandin*, the autobiographical HBO movie released in 2010.

Dr. Temple Grandin is a past member of the board of directors of the Autism Society of America and she continues to run her consulting business, working with corporations such as Wendy's International, Burger King, Chipotle, and McDonald's Corporation. She combines consulting with research and teaching at Colorado State University as well as speaking at forums around the world about autism and animal welfare.

James W. Sanders

ALUMNI HONOUR AWARD

Mr. James W. Sanders has used his lifelong association with the Canadian National Institute for the Blind (CNIB) to make a lasting difference in the lives of Canadians with vision loss. Mr. Sanders was born with glaucoma in Fort William, Ontario, and was registered with the CNIB as an infant. Through the CNIB, he learned to read Braille and use a white cane.

He also received his first talking book, *Twenty Thousand Leagues Under the Sea*, from the CNIB's library program, which gave rise to his enduring commitment to ensuring accessible books for those unable to read print because of vision loss or other physical or learning disability.

As a student, Jim Sanders worked at the CNIB smoke shop in the Port Arthur General Hospital and later as a water-ski instructor at the CNIB's Lake Joseph Centre in the Muskokas. He graduated from Lakehead University with a BA in 1969 and moved to Toronto to become a manager trainee in CNIB's cafeteria operations. In 1972, he switched to the communications branch of the CNIB Ontario Division before progressing to fundraising and managerial jobs. By the 1980s, he had held executive director positions with the Alberta-NWT and BC-Yukon divisions. Mr. Sanders returned east in 1989 to set up the CNIB's Government Relations and International Liaison office in Ottawa.

Jim Sanders spearheaded many momentous initiatives during his CNIB career. He effectively lobbied for changes to the Canadian Copyright Act that would allow for the production of alternate format materials such as Braille and audio books royalty free. Moreover, his 1989 report *The Right to Know* became the catalyst for the creation of the National Broadcast Reading Service, a news source for the visually impaired.

He carried on his groundbreaking work as the Vice President of Client Services and Technology by spearheading the \$40-million digitization of the CNIB's library which established the CNIB as a model for libraries worldwide. At a 2003 meeting with Microsoft CEO Bill Gates, Jim Sanders told him of his dream "to sit on a seaside beach, download my favourite book and newspaper, and sit back and enjoy the sun." Mr. Sanders' vision inspired Gates to found the Global Library for the Blind Initiative which has enhanced the accessibility of digitized reading materials. Jim Sanders' career culminated as CNIB President and Chief Executive Officer from 2001 to 2009. This was a time of innovation that involved a structural realignment of the CNIB and a new emphasis on research to prevent and treat vision loss.

Mr. Jim Sanders' advancement of the rights and quality of life for people living with vision loss was recognized with a King Clancy Award in 2004 and the Canadian Helen Keller Award in 2007. He was inducted into the Order of Canada in 2003 and continues to advocate for a barrier free Ontario as the Chair of the Ontario government's Accessibility Standards Advisory Council, a Vice President of the World Blind Union, and the Honorary Executive Director of the Sir Arthur Pearson Association of War Blind.

Anthony LeBlanc

YOUNG ALUMNI AWARD

Drive and ambition have propelled Mr. Anthony LeBlanc to the top of the business world, and he is now becoming a prominent figure in the sports world. A willingness to push himself has been one of the traits that has allowed Mr. LeBlanc to succeed. He was born in Baie Comeau, Quebec, and moved to Thunder Bay when he was ten. As a child, he loved playing sports and following the Montreal Expos and Quebec Nordiques. "I grew up in a family where sports dominated our lives" he says, "My father was an avid hockey and baseball fan, and my brothers and I played pretty much every sport we could."

Anthony LeBlanc attended Lakehead University where a fascination with politics led him to earn an HBA in Political Science in 1993. After university, he landed a sales job with a small New Brunswick cell phone dealer. His decision to concentrate on cultivating government clients provided valuable training for his later career. From this position, Mr. LeBlanc moved on to sales and marketing jobs with Ottawa-based software giant Corel Corporation and then the Giga Information Group, an e-business consulting company. In 2000, he was hired by Research in Motion (RIM). Mr. LeBlanc's time with this wireless communications firm and creator of the BlackBerry Smartphone coincided with its dramatic growth and near domination of the smartphone market. Through his savvy and expertise, he rose to the position of Vice President of Global Sales and expanded the government sector of the BlackBerry market to 10% of its total sales.

After eight years with RIM, Anthony LeBlanc wanted the autonomy to pursue his own ventures. His lifelong enthusiasm for sports spurred him to form Ice Edge Holdings, a partnership dedicated to bringing major and minor league hockey to Canadian markets. Mr. LeBlanc is using negotiating experience gained in a bid to purchase the NHL Phoenix Coyotes, in his quest to bring sports franchises to Canadian venues. He has long been committed to bringing semi-professional hockey to Thunder Bay, which he sees as a way to foster tourism and economic revitalization. He also remains involved in our community through his work on Lakehead University's Board of Governors, spending part of the year at his home in Thunder Bay. In addition to his sports enterprises, he is investigating real estate and restaurant deals.

Anthony LeBlanc's willingness to take risks and to follow his passions has raised Canada's profile in the business and sports arenas. He has also taken on an advocacy role as a member of the Canadian American Business Council, an organization aimed at strengthening trade between Canada and the U.S. In the future, Mr. LeBlanc's love of a challenge and his leadership abilities may see him make his mark in the political realm.
