SHARON MOON, Associate Editor

12 FEBRUARY 1964

VOL. 1, NO. 15

Editorial

Carnaval du College 1964 has been, without a doubt, the biggest and best carnival that Lakehead College has ever had, not only in terms of organization and student participation, but also in terms of publicity for the college.

News coverage surpassed even the national coverage of last year's "Bath-tub Push", or rather was more beneficial, in that the entire Lakehead was aware of events going on at the college and was interested in them. It takes an effort such as this to unify the student body and instill some of that university spirit that at times seems to be so lacking here.

The tremendous success of the carnival was due largely to the efforts of Carol Bell and her committee, the Circle K Club, the Athletic Council, Nemissa, and, of course, Harpo 'The Hanging Judge' and company.

As you know Mary MacDonald, representing Forestry, was chosen Queen, and the Architectural Technology Faculty won the Faculty Competition. Daryl Beesley, Forestry, was chosen King Carnival.

For anyone who hasn't already done so, I would suggest that you read Ron Knight's (CKPR) editorial of last Wednesday which is posted on several of the bulletin boards. It points out better than I just what the carnival has done for the college.

Not to be forgotten are the fellows from the residence who kicked off the carnival with their campout, or the fellows who launched the 1964 Lakehead navigation season, or the fellows who made a valiant effort to determine the vital statistics of the Sleeping Giant. Slave day, of course, was terrific(!) and Kangaroo Court was also a resounding success.

The increased public awareness as a result of the carnival will no doubt be reflected in next year's enrollment figures.

.....Jack Reynolds

Score in last night's hockey game:

LAKEHEAD COLLEGE ALLSTARS	9
NIP-ROCK RANGERS	8

A NOTE ABOUT OTTAWA

Four members of the University Debating Society returned from Ottawa last week quite satisfied with the results of our performance. It's an understatement to say that we were not "the four little lambs being led to the slaughter", as one of our profs predicted prior to the event. The fact is, we placed sixth out of the fifteen universities competing. We lost to some well-established universities that place great emphasis on debating, such as The Royal Military College, McGill, U. T. O. and the old pros from Osgoode Hall Law School. Fifth and one point above us was Bishops College. However, we did knock off such highly esteemed universities as Queens, Carleton, McMaster, and Ottawa to name a few. This being the first time good old Lakehead has sent a team to an inter-university competition under the parliamentary system, we consider it not bad!

Lakehead University representatives were Carol Bell, Sharon Moon, Maurice Koroniak, and yours truly. Dr. Miller and Professor MacGillivray came along to observe the debates (not as chaperones) and Gus Tsekouras came along as a combination of spectator, cheering section, manager, speech writer, and den-mother. He kept us on the straight and narrow. Thanks a lot, Gus!

In any case, none of those whom I met had ever heard of Lakehead University (that's what we called ourselves). We surely did our best to change that. I made a special point to look around as they were announcing the results, and there were a few wincing and surprised looks when Lakehead was placed ahead of a number of the big-name institutions. We were by far the smallest university there.

All in all, I can only comment that the more we participate in such competitive endeavours as this, the more recognition our university will receive in larger centres. I think we made a good beginning last week.

...Allan Bitz

SEX!! SEX!! SEX!!

Now that we have captivated your undivided attention, we would like to announce that the S.C.M. is sponsoring an evening seminar

tomorrow night, Thursday, February 13, from 7:00 to 9:45 PM on the subject of SEXUAL MORALITY. Dr. T. B. Miller will begin with a brief historical survey of the roots and changes of North American morality. Following this, two Lakehead University students, Miss Judy Jeffery, Arts I, and Mr. Laurie Tulloch, Science I, will express their views on the contemporary moral situation. There will be ample opportunity for informal group discussion after which any questions may be directed to Rev. Hugh McDonald, a United Church Minister, and Dr. A. I. Armstrong, a Psychiatrist with the Ontario Hospital.

This promises to be an interesting and informative evening, discussing a topic which is of particular concern to college students... That's tomorrow night at 7:00 PM.

* * * * *

Films (including a French short) will be shown FREE OF CHARGE tonight at 8:30 in Room 16 courtesy of the S.C.M. Film Society. The academy award winning film Virgin Spring which was to be shown is not available.

WHO LET THE SIDE DOWN?

It was a great sight during the carnival to see all those second year foresters and a very few first year foresters out there striving together to hold up the honour of the Forestry Faculty. The odds were great and competition was keen in some contests, especially from the Arts Faculty.

Nevertheless Forestry has the largest faculty of boys on campus, and by all rights should have run up a very impressive score. Even if they didn't win every contest, just entering would have earned a point for each participant. Unfortunately, however, the majority of the first year foresters let the side down. Not only did they not enter anything, but they didn't even have enough team spirit or school spirit to come and cheer on their fellow faculty members.

I would, however, like to express the thanks of all the second year forestry students to all those first year students who were bold enough to be proud that they belong to the Forestry Faculty, and who had spirit enough to come out and pull for their missing team-mates.

Those of you first year foresters that weren't there, I hope that by the time you get into second year, you will have acquired some team spirit, if not school spirit.

...P. C. Guise

CANADA, AN ISLAND?

Just how narrow and insular are Canada's domestic and foreign policies? Are Britain's? Are we still content to be WASP's (White Anglo-Saxon-Protestants) mouthing platitudes about the White Man's Burden and/or the problem of the safety of the North Atlantic??

A few weeks ago you hear Mr. Douglas Fisher, M.P., speak on Regionalism in Canadian Politics. Today, Mr. Lothar Bode, History teacher at Hillcrest High School, Port Arthur, will carry this topic a few steps forward, and will discuss the insularism of politics in Canada, and in the whole Anglo-Saxon world. In his talk entitled Political Perspectives, Mr. Bode will also deal with the contrasting forces of regionalism and continentalism in the Anglo-Saxon countries, and of continentalism in the rest of the world.

This is today at 12:15 in the University Centre (in the Seminar Room next to the Employment Office on the main floor). Political Perspectives. The talk will be followed by open-end discussion.

Canada is growing. This country has the highest birth-rate of all the industrialized nations. Either that or it has the lowest birth-rate of all the backward nations. Whichever way we look at it, this is the land of opportunity.
