Native Language Instructors' Program

### **AN INTRODUCTION TO THE NATIVE LANGUAGE INSTRUCTORS' PROGRAM**

Odaminowin Language and Cultural Camp functions as an important part of a community/family known as the Native Language Instructors' Program (NLIP). Established in 1986, the purpose of NLIP is to provide persons who are fluent in their native language with a recognized (in accordance with the Ministry of Education) means of teaching that language to their respective communities. In other words, NLIP serves largely as a school that educates students in a relatively standardized method of instruction, which is applied to traditional languages. By no means restrictive, NLIP provides a learning environment that respects, encompasses and promotes traditional teaching practices and beliefs. NLIP also provides courses to those persons who wish to become fluent in a particular language. These courses, referred to as Native as a Second Language courses, are essential to the NLIP program, particularly where the children are concerned.

In 1989 the NLIP student identified a need for a more realistic and experiential classroom environment. Students found that teaching to a group of adults whom they attended classes with on a regular basis often proved unrealistic for the student teacher and, quite often, tedious for other students. In addition, students often found it difficult to leave their communities and families for three to four week durations and they found that the separation adversely affected their learning experience. As such a concept was developed which would provide both a more realistic experience for the student teacher and an excellent opportunity for communities as a whole to continue or regain their language heritage.

It was decided that the NLIP students would be offered the opportunity to bring their families with them to the program. All the children would have the opportunity to attend the "Native as a Second Language (NASL) for children program" and their attendance would provide a more realistic practicum experience for student teachers. One question that did arise out of this scenario was how to occupy the children in a safe, enjoyable and educational environment during the afternoons while their parents were in classes or studying. The solution was the development of Odaminowin Language and Cultural Camp.

## **WELCOME TO ODAMINOWIN LANGUAGE AND CULTURAL CAMP**

Odaminowin Language and Cultural Camp have been in existence for 33 years and each year brings more innovative and exciting aspects to the program. The constant objective of Odaminowin (meaning "to play") Cultural and Language Camp is to create a safe, structured, and experiential environment to the participants in which the traditional teachings of the Medicine Wheel and the Seven Grandfathers are integral. As such, a wide range of programming is offered including minor team games, traditional arts & crafts, role model programs, heritage site visits and education programs. It is important to note that each activity (whether it be playing Siamese soccer or making medicine wheels) and the behavior and attitude of each staff member should reflect and role model the goals, the mandate, and the philosophy of Odaminowin Language and Cultural Camp.

### **Philosophy:**

There is a common belief among our Anishnabek people that a child is a gift or loan from the Creator and that we are given the responsibility to raise and care for our children. The Creator has entrusted us to establish a safe and secure environment for our children, which promotes the traditional beliefs, values and languages of our people.

In keeping with this philosophy the staff of Odaminowin acts as the extended family for the NLIP community by supporting NLIP students with their childcare needs and by providing an environment to the children that is safe, fun and is congruent with the tradition teachings.

### **Mandate:**

Odaminowin Language and Cultural Camp is to provide a safe and secure environment, which offers a blend of cultural, educational, recreational programming that promotes and supports the extended family heritage of the Anishnabek culture. In addition, this environment must provide opportunities for personal enjoyment, play, growth, cultural awareness, and the development of self-esteem.

## **ODAMINOWIN CULTURAL AND LANGUAGE CAMP PARTICIPANTS**

As stated above, our participants come from remote, semi-remote, and urban communities across Ontario and range in age from 5 to 16 years of age. All NLIP students who bring children between

the ages of 5 to 16 years are required by NLIP and by residence services to register their children. (For more information concerning behaviors, discipline, developmental stages see staffing section).

Program Coordinator and Program Assistants are responsible for the well-being of all children that attend Odaminowin Language and Cultural Camp and are required to develop a secure environment. The experience for these children depends on cooperation and respect for each other. Let's create an experience and an unforgettable for all.

### Used Clothing/ Furniture Stores

There are plenty of these around Thunder Bay. For the best bargains, it is best to look around. There are several bargain stores along Simpson and Cumberland Street. When buying used furniture, make sure all pieces are there, check it out thoroughly and make sure it all works first. Most people are generally approachable so try to bargain with them a little bit (It doesn't hurt to try). Below are some locations you may wish to check out; See the Yellow Pages phone directory if you want more listings.
